ACTION THE KEYNOTE AT WE THE PEOPLE MEETING

It is doubtful if ever in recent history has there been a meeting of such significance to rightwingers as that which took place in Chicago over the weekend of September 17. It was enough to make even the most pessimistic patriot lift his eyes once again to the hope that Americanism and Constitutionalism can be substituted for the alien growth which has sprung up in Washington.

For at that time, over six hundred patriots from all sections of the country met in dogged determination to form some sort of political strategy and ACTION group capable of counteracting the imposing array of totalitarian Dealers lined up against all anti-marxists and nationalists. It is a fact of great importance that this intention was fulfilled.

In attendance were most of the leading patriots of the country. Rather than list some, and inadvertently omit others, we will not list any. However, just think of almost any name in the FIRST NATIONAL DIRECTORY of "Rightist" Groups (\$1.75 - order from RIGHT), and chances are that that person was in attendance!

The meeting itself was an excellent demonstration of what leadership and good will can do to overcome the built-in weakness of the rightwing: disunity. This leadership came from many sources, but greatest credit should perhaps be given to Harry Everingham, Jerome Joachim and the two Committee leaders, E. Gordon Fox and Elmer V. McCarthy, all of whom proved their ability and patriotism.

The whole Convention was exceptionally well-organized, from arrangements for the various affairs and Committees to efficient handling of literature, etc. This in itself deserves praise and shows first-class organizational skill. The two Committees, one apiece on Platform and Strategy, met with delegates from 38 states in attendance. From each came a powerful Resolution containing the results of the close study and intense debate in which the delegates had engaged.

The high point of the meeting came on Sunday, September 18, at which time the Resolutions were presented to the body as a whole. Then was the

CONGRESS OF FREEDOM ANNOUNCES DALLAS THEME

Timing their meeting with the We, The People conclave, the Board of the Congress of Freedom also deliberated in Chicago. On the agenda were various matters, among which were further plans for the next Congress, to be held in Dallas next April. Among others, the following important resolution was adopted:

Because we feel that everything else is being placed ahead of freedom, it is the sense of the Board that the program theme for the 1956 Congress of Freedom be "Constitutional Freedom First," embracing: (1) The Bricker Amendment, (2) The UN, (3) Repeal of the 16th Amendment, (4) Tax-free and/or other subversive organizations, (5) The freeing of our falsely-held POW's in China and elsewhere, (6) The sacrifice of freedom resulting from our foreign policy of appeasement, (7) Such other subjects as the Program Committee shall deem necessary.

Soon to be published by the Congress is a book, entitled, "The Truth About the UN." This will contain the complete results of the panel meetings and transcripts of the speeches which took place at the recent San Francisco meeting. The book will sell for \$3 apiece. Those who have paid \$5, the figure originally set, will receive two copies. This book will be the first and only comprehensive, documented and detailed criticism of the United Nations which has yet appeared.

Elected to the Board were Mr. W. L. Foster, of the United States Day Committee, Mr. Dan Smoot and Mr. Harry Everingham. To the National Advisory Committee were added Mr. Milton Lory, past President General, Sons of the American Revolution, and Mr. Robert LeFevre, former Executive Director of the Congress of Freedom and now editor of the Colorado Springs Gazette Telegraph.

Mr. George Thomas, Executive Director, announced after the meeting that other very important matters were acted upon. The present upsurge of patriotic feeling among large groups of Americans has brought with it many new ideas to increase the influence of and degree of cooperation between pro-Constitution groups. It is hoped that an an-

2

nouncement of extreme importance can be made in the near future.

The address of the Congress is 1330 Turner Blvd., Omaha 5, Nebraska.

NEW STATES' RIGHTS GROUP

Surging up like a new mountain range from the troubled bed of an otherwise calm sea, the States' Rights movement gives birth to a new organization every time one glances Southward. A very well-written and attractive paper called "The Virginian" has made its appearance in the Old Dominion state. The paper, devoted to the noble ideals of many of the truly great Americans of history who originated from Virginia, costs \$3 per year and is published monthly. It is now in its third issue.

The group publishing "The Virginian" is the Virginia League and the offices are located at 927 16th St., Newport News, Va. The editor, William Stephenson, is a young man who is also president of the organization.

TRUMBULL PARK

Chicago's troubled Trumbull Park housing development continues to serve as a truly amazing example of what good and ordinarily undisturbed Americans can do to fight dictatorial and corrupt politicians who assume authority over the living conditions and the neighborhood of free people.

These hard-pressed patriots have been literally backed to the wall by the combined force of 360 policemen every 24 hours. The residents are determined that, come what may, the cultural standards of their neighborhood shall be maintained and undesirable tenants will never be welcomed. Now going into their third year of battle, they are more united than ever. The brainwashers, Reds and other assorted alien ilk are learning that Americans can only be pushed so far, thanks to the Trumbull Park epic.

A new weekly paper, called the "South Deering Bulletin," is being published in order to break the stranglehold of censorship which has been effortlessly imposed on each and every Chicago newspaper by the brainwashers.

A free copy of the paper can be had by sending a three cent stamp to Mr. Joseph Gornick, Secretary, South Deering Improvement Association, 10202 South Bensley Ave., Chicago 17.

MONETARY CONFERENCE

Groups of monetary reformists have announced the holding of two National Conferences in Los Angeles over November 11 through 16. The first is the Economic Welfare Conference and the second is the Construction Surveyors Conference. For more information write Liberty Free Press, 1948 - 48th Ave., Oakland 1, California.

PROPOSED NEW PARTY

Indicative of the tremendous interest and activity being shown already in the forthcoming Presidential election, another new Party has just been formed by Kent and Phoebe Courtney, the publishers of the hard-hitting patriotic journal, "Free Men Speak." In a release mailed to all subscribers, the Courtneys announce that Lt. Gen. P. A. del Valle, the prominent and respected patriotic leader, has assumed the post of Temporary Chairman. As yet, the new Party has not been named and is referred to as the Interim Committee for a New Party. The address is P. O. Box 4168; New Orleans 18, La. In a newspaper release dated September 16, General del Valle stated, "There is no difference between a New Deal Democrat and a New Deal Republican. We voted for a change in 1952, which we didn't get. It's the same old New Deal Socialism, only now it goes under the name of 'Republican'."

The first meeting of the Interim Committee will be in October, at which time a tentative States' Rights, pro-Constitution platform will be drawn up. The party intends to organize in every state.

"Grass Roots Petitions for Leadership" are being circulated in order to make known to certain political figures of both parties that the time for the full-scale formation of a new party has arrived.

GEORGE RACEY JORDAN

CALLS FOR CONGRESSIONAL INVESTIGATION

Maj. George Racey Jordan, the patriot who was in charge of the Great Falls, Montana shipping point where all of our important military and technological secrets were sent during the last war to the Russians through the machinations of hordes of traitors in Washington, spoke in the San Francisco area this month. Maj. Jordan is now the Executive Director of the American Coalition of Patriotic Societies.

In an address sponsored jointly by the San Francisco chapters of the SAR and the DAR, Maj. Jordan called for a Congressional investigation to see if Washington Red-lovers are still allowing the Russians to purchase certain important parts for their MIG fighters in America. Maj. Jordan, whose unbelievable revelations concerning the extent of the wartime treason are fully documented, and which have never been refuted, stated that there is no reason to believe that such shipments have ever been stopped!

Maj. Jordan also made the pertinent observation that the enemy has been very successful in keeping patriotic groups "fractured, disunited and at each others' throats," so that an accounting of the full treason has never been revealed, let alone brought to the attention of the general public.

His book, "From Major Jordan's Diaries," can be purchased for \$3.50 from Harcourt, Brace & Co.

WILLIAM BUCKLEY ANNOUNCES NEW MAGAZINE

In an interview over State of the Nation on October 9, William F. Buckley, Jr., brilliant young author, stated that a new 32-page weekly publication, of which he will be editor and publisher, is to appear on November 1. The name of the magazine is to be the "National Review."

Mr. Buckley stated that he believes that the liberals should be taken seriously in their unctuous protestations that "all opinions" on public questions should be heard and therefore the "National Review" is being initiated. "There is one point of view not being expressed in the country and that is the conservative right," said Mr. Buckley.

CITIZENS' COUNCILS TO PUBLISH NEWSPAPER

The first Annual Report of the Association of Citizens' Councils of Mississippi contains announcements of the inauguration of a newspaper for that body. The Citizens' Councils are the group of states' rights organizations which now extend through seven Southern states and which have allied organizations in four more. The Councils have had the most phenomenal growth of any Constitutionalist organization in America because of their leadership and the gravity of the issues.

The new paper, as yet apparently unnamed, is due to appear soon. It is hoped that this paper will grow into the official organ of all the Citizens' Councils in the nation. The editor will be Mr. William J. Simmons, the Administrator of the State Council and the secretary of the Jackson Citizens' Council. It is planned to cost \$2 per year. Subscriptions should be sent to Mr. Simmons at room 203, Walthall Hotel, Jackson, Mississippi.

UNITED STATES DAY OBSERVANCES READIED

From coast to coast, real Americans are preparing to make this next United States Day celebration the best yet. Coming on October 23, the day before the United Nations Day, United States Day is rapidly becoming the favorite patriotic holiday.

Mr. W. L. Foster, Chairman of the United States Day Committee, urges all patriots to write their congressman, governor and mayor to celebrate October 23. Car stickers and pamphlets are available from the offices of the Committee, in Tulsa, Oklahoma. Write to 103 Boulder Building.

PATRIOT'S RESORT

Oak Harbor, the beautiful Florida sailing resort run by Lt. Col. John L. Hitchings, is fast becoming a mecca for vacation-minded patriots. Many Americans already are familiar with Col. Hitchings' Convention-by-Mail, which recently showed that

Senator Knowland is the favorite candidate for Constitutionalists, followed by Gov. Bracken Lee and General MacArthur. Besides being an ideal place for a vacation, Oak Harbor is a meeting place for rightwingers where discussions about Americanism are as much a part of the daily routine as is recreation. Oak Harbor is in Southport, Florida.

LUCILLE MILLER TELLS OF HORROR: PLIGHT OF EZRA POUND

Mrs. Lucille Miller, the fighting Vermont lady patriot and polemicist who had the gall to complain about Washington Reds and totalitarian and unconstitutional conscription laws, whereupon her home was invaded by an arm of the American Gestapo, she was gassed into unconsciousness, hustled off to an insane asylum five hundred miles away and threatened with physical mutilation by government inquisitors like federal Judge Ernest Gibson, is back in circulation after her ordeal. None the worse for wear, but angrier than ever at the treatment she received, she has issued a thought-provoking bulletin calling for abolishment of sections 4244 and 4246 of the U. S. Code. Under these laws the government has assumed authority to usurp the Bill of Rights by simply accusing a political opponent of being "insane" in a closed hearing and then locking them up forever, or cutting and destroying their brain. Concerning Ezra Pound, Mrs. Miller says:

Ezra Pound, one of the current batch of political prisoners, has been in St. Elizabeth's for ten years with every prospect of staying on unless rescued. He is there because he made sassy remarks about the geniuses who bestowed upon us the New Deal and an endless series of foreign wars to make the world safe for Soviet Democracy. Before you could say "Felix Frankfurter" Ezra Pound was whisked off to St. E., charged with some kind of vague sedition. Nobody knows any more what the original charges were, if indeed anybody ever knew.

Howard Hall, called the Hell Hole, is St. Elizabeth's toughest maximum security stronghold, bristling with obstructive devices and girt about by a 30 ft. wall to contain the most desperate and violent of insane criminals. The roars, shrieks, and curses of the fiends bottled up in the Hell Hole float over the whole City of the Damned, to fetch answering screams and obscene curses from far away WR8, the most violent female ward. Now Ezra Pound has been a poet and a scholar all his life and even his worst enemies would never call him violent, but when they got him within the cruel walls of St. Elizabeth's they kept him in the Hell Hole for a WHOLE YEAR, just to let him know they were not fooling. They meant to break him for keeps right then and there but Ezra Pound had more

FUNDAMENTALISTS CONVENE

The American Council of Christian Churches will hold its fourteenth annual convention in Grand Rapids over November 2-4. The theme of the Convention will be "God's Word for Perilous Times."

Hosts to the convention will be the Michigan Association of Regular Baptist Churches. Convention headquarters will be in the Pantlind Hotel. All afternoon and evening sessions will be held in Wealthy Street Baptist Church and morning business sessions will be in the hotel.

The address of the ACC is 15 Park Row, New York 38, N. Y.

crucial time which would show if the American rightwing would be able to bury their minor differences in order to agree on the basic and vitally-important things. At many times, it seemed as if the differences were too hotly-contested to ever be resolved in general accord. However, thanks to the inherent intelligence and self-control of practically all in attendance (not to mention the highly commendable feats of leadership and impartiality displayed by Mr. Joachim and Mr. Everingham), the two Resolutions -- with minor alterations -- were adopted.

Fifteen directors were elected to head We, The People. They are: Dr. Ernest E. Anthony, Jr., Ft. Worth; Mr. Robert B. Dresser, Providence; Mr. E. Gordon Fox, Chicago; Capt. Eugene R. Guild, Glenwood Springs, Colo.; Mr. Merwin K. Hart, New York City; Mr. B. M. Miller, Arlington, Va.; Mr. William R. Schneider, St. Louis; Mr. Willis E. Stone, Los Angeles; Mr. Walter J. Brand, Sheboygan; Mrs. Mary D. Cain, Summit, Mississippi; Mr. Harry Everingham, Chicago; Mr. Jerome Joachim, Berwyn, Ill.; Mrs. Louis L. Minor, Memphis; Dr. Elmer V. McCarthy, Chicago and Mr. Dan Smoot, Dallas. The first eight were elected to coordinate the activities of the six states in each of their respective areas and the last seven were elected as directors at large.

Officers will be elected by the Board after committees have prepared the by-laws and other organization details, though Harry Everingham is serving as Executive Director in the meantime.

The basic idea is to form a "balance of power" in American politics. In order to do this, the plan of action calls for organization down to the precinct level.

Now, all patriots at last have a Platform and plan of action which have literally been hammered out on the anvil of public discussion and majority rule and the coming months may witness the beginning of a national revival of Americanism.

Address of We, The People is 35 E. Wacker Dr., Chicago 1, Ill. Copies of the Platform and Action resolutions are available.

fortitude than they thought a poet would have so after a year they gave up and put him in a better building.

Observe the contrast between the treatment dealt out to Ezra Pound who was accused of being too friendly to the Italians and the treatment accorded to Alger Hiss and Owen Lattimore, both publicly accused of sympathy with Communist Governments. Ezra Pound has never had a trial or hearing or any chance to explain or defend his views, whatever these may be. He was rushed to the grim fastness of St. Elizabeth's in secret. Lattimore on the other hand had many hearings before Senate Committees, all of which were covered fully and in a friendly manner by the press. At the conclusion of one series of hearings, the late Sen. Pat McCarran described Owen Lattimore as "a conscious and articulate tool of Soviet policy". If the lies told by Lattimore cannot be called perjury they certainly look like "delusions", yet imagine the uproar if somebody had ever suggested that such a fancy liar as Lattimore might possibly be a trifle unwell mentally. Judge Youngdahl, so far from asking Lattimore if he was feeling all right, dismissed the charges of Communist sympathy as too "vague" and Lattimore has had no discomfort beyond the anguish he says he felt when people doubted his perfect righteousness. For this the whole U. S. Government will never get over apologizing.

Alger Hiss stole Government documents by the acre and gave them to other Communists who said they needed them for something or other. For this lovable weakness Hiss served 3-1/3 years in prison, but Ezra Pound has put ten years in St. Elizabeth's which is worse than any prison, and for what? Hiss tried to kiss off his early red affiliations by pleading that he was "confused". Did anybody ever hint that Hiss should have psychiatric aid to unconfuse him? On the contrary, the psychiatrists were turned loose on everybody who dared to question the perfect righteousness of Alger Hiss.

Now what makes the difference in disposing of these political cases? Why do some get every courtesy while others get a quick trip to St. E.? Read this again and then you will know who runs the New Bastille and for whose benefit. Will we have to storm it to get Ezra Pound and the other political prisoners out?

A RIGHT SCOOP! EXCLUSIVE: A special communication from RIGHT's New York reporter reveals that "The Freeman," potent libertarian magazine published by the Foundation for Economic Education, is to cease publication!

Heavy losses are the reason for this decision, RIGHT is informed. The FEE, being tax-exempt, could not subsidize "The Freeman," and so planned to sell it to William Buckley's new "National Review" for one dollar. This deal, however, was turned down by FEE's Board of Directors at the last moment. It has now been decided to retain the Freeman name and issue the present publication called "Ideas on Liberty" under the name of "The Freeman," for free.

Frank Chodorov, Editor, is retiring to his New Jersey home.

Readers of "The Freeman" will be informed of the new situation, soon.

This development leaves the Rightwing magazine field still confined to three: "American Mercury," National Republic" and "National Review."

ANOTHER RIGHT EXCLUSIVE: Information RIGHT has gathered from different sources indicate some very interesting developments in Dixieland. The Federation for Constitutional Government is apparently finding itself a victim of some very slick, practiced maneuvering!

On the one hand, the Lords of the Democratic Party and the "free" press have issued a news blackout order on the Federation.

On the other hand, however, they are doing all within their power to throw roadblocks into the path of the Federation--feeling that unless this threat to the continued red and liberal domination of their kept Party is immediately exterminated, it will soon be too late to do anything at all!

The high stakes in the behind-the-scenes battle now going on may lead to some early, important developments. One effect already: the Federation's organization plans are being thrown behind schedule--and this in spite of terrific grass-roots support!

Incidentally, did you note the unexcusable faux-pas in the November 25 "U.S. News & World Report?" On p. 56, this usually accurate magazine reported: "There is no indication of such Southern opposition as met him (Adlai) in 1952." Wake up, U.S. News!

OPEN LETTER TO PRESIDENT EISENHOWER

Dear Mr. President:

Of late, facts have been coming to the attention of the American people which are so damaging to you, personally, and even to the honor of the American Army, which you commanded, that RIGHT hopes that you will do us the honor of supplying an answer to these vexing questions.

The implication of the below is so utterly fantastic that we are tempted to ignore the whole thing. Yet, we cannot. The facts, unfortunately, exist, and the people must be supplied answers to these disturbing facts if they are to not draw their own ghastly conclusions.

First of all, there are some very minor questions bothering RIGHT--and millions of patriotic Americans. Then, there are some very big questions. More of that, later.

RIGHT would like to know if the rumors about your early career are true: were you sent home from the Philippines by General MacArthur because of your incompetence? Is it true that you are, even today, uneasy in the great man's presence, and that this is the real reason you have refused to draw on his vast store of wisdom? Following your return to America, is it true that you visited the "elder statesman," Bernard Baruch, and then your phenomenal rise to Supreme Commander of all Allied forces began? (You were jumped over the heads of more than 250 out-ranking officers, remember?) Did your visit to Mr. Baruch have anything to do with this? If so, what was the agreement between you and Mr. Baruch?

Is it true that you and you alone are responsible for the surrender of Berlin to the Russians? Did you cut off General Patton's gasoline, so that he was unable to take the Balkans, as he was in the process of doing? Did you and Harry Dexter White--who was then known to be a Communist spy--hatch the Morgenthau Plan, in your London headquarters? What part did you play in the cover-up of the horrible Katyn Forest massacre, and why? Were you responsible for turning over to the Russians some 70,000 highly-trained German scientists, while we received only a few hundred? And are those the men responsible for building Russia to a point of aerial and atomic superiority to us?

How about the Austrian State Treaty? How does this in any way benefit America and the West? Is it not another sellout to Russia? Lastly, why did you appoint the infamous Lyman Lemnitzer--who is either an utter incompetent or a traitor--to try and fill MacArthur's shoes?

RIGHT would appreciate the answers to the above questions. However, all these matters are relatively unimportant! The truly urgent question that you must answer is this:

Mr. President, are you responsible for the murder of some two to five million anti-Communist Russians, Poles, Balts and Balkanese?

As you know, the Yalta Agreement has been justly condemned as a sellout. But as bad as it was, it had no provision in it for the forcible "repatriation" of millions who had fled into Europe to escape the bloody clutches of Godless Communism. Stalin, of course, had to have these millions back, else other millions of his subjects would get ideas of their own about freedom.

Mr. President, according to mounting documentary evidence, it was you, yourself, who sent thousands of these hap-
and death and torture!

The record also indicates that too much for your war-hardened offi-asked the Pentagon to hand down a de-force was to be used in this bloody interesting to note that your officers, ly under your own specific orders--had months!

this butchery finally became cers, and that finally you cision as to whether or not business. It is extremely Mr. President acting direct- been employing force for

After this matter was reffered to the Pentagon, Mr. President, the unbelievable happened. Three months went by; it began to look as if the millions still in American hands would be saved. AND THEN PRESIDENT TRUMAN APPOINTED YOU CHIEF OF STAFF--TO SUCCEED GENERAL MARSHALL--on November 19, 1945.

Mr. President, the record from here on speaks for itself: ON DECEMBER 20, 1945, THIRTY-ONE DAYS AFTER YOUR APPOINTMENT, THE JOINT CHIEFS OF STAFF ORDERED THE ARMY TO USE FORCE TO REPATRIATE THE REMAINING TWO TO FIVE MILLION ANTI-COMMUNISTS!

Mr. President, this Order is the foulest in American history. It has stained black the Army of Washington, and countless heroes who battled in the cause of liberty. It makes liars and hypocrites out of American statesmen. But it is all in the record. It initiated what history will record as probably the foulest war crime ever perpetrated by a "Christian" nation.

Literally tens or hundreds of thousands of these pitiful people committed suicide, rather than return to Red torture. Our own American Army used bayonets, bullets, dope and lies to induce these millions to return to their death. The ghastly story is almost beyond belief. Your own Pentagon named it "Operation Keelhaul!"

Mr. President, here are our questions: Why is the Army still suppressing (illegally) all official documents dealing with this horrible crime? Who was the man responsible for pushing through the order to use force to "repatriate" these innocent millions? Mr. President, was it you? If so, why?

Finally, Mr. President, is it true that "the Communists are going to support Ike for the Presidency in 1956," according to the Socialist "Weekly People" for October 22, 1955? If so, we ask, again, why?

Rightwingers who are interested in forcing a full exposure of this matter should get behind HR 137, introduced by NY Congressman Albert H. Bosch. Only the demands of an aroused America can save this Resolution from the oblivion desired by its enemies.

ANOTHER SCOOP! EXCLUSIVE TO RIGHT: On the highest authority, RIGHT learns that a very important meeting was held in Chicago on January 27. Present were the heads or representatives of many patriotic organizations, including, WE, THE PEOPLE, FOR AMERICA, NATIONAL ECONOMIC COUNCIL, LIBERTY & PROPERTY, CONGRESS OF FREEDOM and certain Southern groups.

The purpose of this meeting, RIGHT is informed, was to determine means through which all patriots can take patriotic ACTION together. Elected chairman by those who attended was Harry Everingham, energetic executive for WE, THE PEOPLE. These things were decided: (1) That the slogan for '56 shall be, Country Before Party (suggested by Col. John Hitchings, of Florida), (2) That a "Poll of Patriots" shall be taken throughout America to get the names of all real Americans, (3) That "patriotic action" shall begin right inside each patriot's own precinct, (4) That all candidates will be screened by asking them their views on: Taxing and spending, proper sphere of federal activity within the states and with private enterprise, attitude towards the Bricker Amendment, (5) A precinct workers training manual will be prepared for the use of workers.

It appears that nationwide cooperation between all good Americans is fast becoming a reality. Main question: is there time enough--in the North--to be effective in the '56 election?

CORRECTION, PLEASE: In last month's issue, RIGHT reported that Chancellor Adenauer signed the Austrian State Treaty. Technically, this is incorrect, as the document was only signed by the Big Four. Adenauer was forced to "accept", or "consent to" the terms of the Treaty, and did not actually sign it.

ADDITIONAL ACTIVITY with a direct view towards the coming election is taking place the length and breadth of the land. The ABRAHAM LINCOLN REPUBLICAN CLUB announces that the annual Lincoln Day celebration will be held, this year, at the Morrison Hotel, in Chicago, on February 11. Announced speakers include Senators Malone and Jenner. Reservations, reports Capt. Bundy, the President, cost \$10. Send to 82 W. Washington St., Chicago 2. . . . WE, THE PEOPLE has members in 48 states and over 800 towns. 111 N. Wabash, Chicago 2. . . . The CONSTITUTION PARTY has placed Sen. Jenner on the ballot in Colorado. Activity in other states is contemplated. . . . Another "third" Party in the making, reports Lucille Miller. PEOPLE FOR McCARTHY 'twil be the name. "A survey of every county within one hundred miles of Augusta indicates now that Talmadge will carry every one in this area with the possible exception of three," reports the militant "Augusta Courier" about the forthcoming George-Talmadge battle shaping up in Georgia. George is being backed by the liberal-internationalist element in the state. . . . Ray Tucker, syndicated columnist, predicts that interposition will be adopted by eleven Southern states.

Police are desperately needed to try to cope with a rising tide of lawlessness. The "Chicago Daily News" for January 9 ran a frank editorial about the dangerous situation. "Officials say the South side situation is intensified by the number of narcotics addicts and a high tide of new immigrants from the South, some of whom have primitive standards of manners and morals," said the News, which commended a move to institute a vigilante system, of all things, to try and protect homes and property at night. Strange that these "new immigrants" weren't "lawless" while they lived in the South. The NAACP is reportedly at its wit's end about the matter.

RUMBLINGS FROM THE RADICAL RIGHT: RIGHT understands that a national convention of radical Rightwingers is to be called in Chicago about July 4 under joint sponsorship of West Hooker's NATIONALIST PARTY and the REALPOLITICAL INSTITUTE. Tender Victory, a new novel by Taylor Caldwell. This one may hit the best-seller list, though it is being given the well-known "treatment" by anti-anti-Communist publications like the N. Y. "Times." American Race Theorists, a devastating, scholarly book by Byram Campbell, this meets the arguments of the equalitarians on their own ground and makes hash out of them. A GREAT AMERICAN, Tom Gaskins, the originator of cypress knee art objects, has proven what guts, a dream and free capitalism can accomplish. Gaskins, an outspoken patriot at the same time that he is a successful entrepreneur, has shown himself to be one of the few really courageous businessmen in America. Having no truck with bureaucratic red tape, Social "Security" and other forms of totalitarianism, Gaskins refuses to expand his business--in spite of increasing demand for his products. Expanding would mean hiring extra workers, writes Gaskins, which, in turn, would mean too many headaches with federal rules and regulations, and he has had more than his share, already. (The federals have to periodically confiscate his bank account to get their SS "contributions.") Gaskins personifies the kind of independence and courage which built America. THE ISSUE

ON THE VIRTUE OF GENEROSITY

"Some rise by sin and some by virtue fall."

--Shakespeare. Measure for Measure

Western Civilization has been blessed with statesmen whose generosity (Ugh!) has never been questioned. Let us inquire into the case of one J. F. Dulles, at present the Head Soda Jerk at the free lunch counter, Striped Pants Department, Washington.

Just the other day the world was privileged to witness the ponderous cerebations of this virtuous character.

Now this was quite an occasion by itself, as usually Jerk John whooshes by so fast that he hardly has time for even a gay fare-thee-well.

But this time he stayed around long enough to speak at the annual luncheon of the Associated (controlled) Press, and all present had the rare opportunity to ponder upon his profound gurglings with the respect they deserved.

Mister Dulles is of an odd breed, much like his worthy contemporaries, Frankie Roosevelt and Winnie Churchill. He has all the facts handy at his well-manicured fingertips but has yet, strangely enough, to make the right interpretation of them! It must be an occupational disease. Yet it is too bad, in a way, because it is because of Jerks like Emperor Franklin and Sir Winston Barleycorn and Perfesser John that the West continues to commit suicide. We, the people of the crumbling West, owe a great debt to the likes of Perfesser John.

Emperor Frankie and Sir Barleycorn demonstrated their selfless generosity in the last war, when their wise policies installed the Russian-mongol hordes in the heart of Europe and obliterated Germany, one of the few anti-communist forces the West has ever produced.

Not to be outdone, Laughing Boy Ike proved that his generosity was also unusual by making a gratis gift of Berlin, much of Germany and the Balkans to his buddies in the Kremlin. As a matter of fact you might say that Laughing Boy was sort of a star--a red star--donor

because his famous grin never left his honest face as he forcibly turned over some two to five million anti-Communist civilians and soldiers to the Russians, not to mention some 75,000 German scientists and technicians and the Uranium mines of Czechoslovakia. These civilians, by the way, were obviously mentally ill, as they refused to return willingly to the Communist paradise they had fled from. Consequently, Laughing Boy apparently felt it his duty to see that they were forcibly returned for therapy. It is reported that the therapy administered to them by the NKVD was amputation of the head at the neck, and that the rate of cure was 100%!

The Russians were so grateful for this foreign aid that they promptly bestowed on Laughing Boy their rare and jewel-bedecked Suvorov Medal, and even temporarily switched drinks to Martinis from their native Vodka at his urgent request, causing some skeptics to assert that Ike always expects favors in return for favors.

Laughing Boy's generosity was so unstinted that one might judge that it far outdid the better-known generosity of a certain Henry Dexter White, whose compassion for the underprivileged Russians led this idealist to give them American money plates so that they could print American taxpayer-backed bills whenever the spirit moved.

All in all, we might say, these statesmen have been so generous with the resources of the West that they have all but given away Western civilization. But never fear; we may rest assured that what little is left will not be left for long if Perfesser John has his way. Read on:

Currently, Perfesser John--with the avid help of Laughing Boy, we assume--is engaged in the task of completing the work so auspiciously begun by that much-maligned Atlantic Unionist, Benedict Arnold, whose own generosity, you may recall, once was also greatly appreciated in certain quarters overseas.

To get back to our story, after licking the whipped cream from his pinkies and flicking a crumb of cake from his well-turned French cuff, the Perfesser gave a broad, Ike-like grin and began his lecture at this luncheon. After explaining that the threat of Russia is growing less and less each day the inimitable Perfesser continued with irrefutable logic to point out that this lessening of tension obviously demands "greater emphasis

Perfesser John Foster Dulles practices Eisenhower grin; does good job, too!

on cooperation" between the NATO nations. Now translated into American this means that it is high time that the United States cope with this "lessening threat" by setting up an international authority which would give orders to American citizens without regard to American law. (If you find this clear logic hard to follow for God's sake don't let on or you will find yourself a candidate for therapy to cure your mental illness.)

We might point out that the federal courts, after 26 years of generous attention by Emperor Frankie, Give-'em-Hell Harry and Laughing Boy Ike, can be relied upon to see to it that Perfesser John's vision of American subservience to alien control is not a mere burst of boyish enthusiasm.

And then came the bombshell. The Perfesser, unquestionably out of wild chance alone, said something completely true, indicating that his writer must have slipped up. "The historic weakness of the West has been its disunity," read the great man. "Out of this disunity came wars which have taken the lifeblood of its finest youth and weakened its economies."

Now what conclusion are we to draw from this? Well, according to the Perfesser, only a reactionary bumpkin would infer that the way to strengthen the West is to strengthen the West. Of course not! Every well-perfumed liberal knows that the way to strengthen the West is to further weaken and disunite it: "More independence needs to be perfected." (What does that mean?) "More economic development needs to be planned and supported (by whom?) throughout the world. More sense of equality and human brotherhood needs to be developed." (Oh-oh! There are those words again!)

In case you have any doubts as to the Perfesser's

meaning, please refer to his speech a few days later to the 100% American secret society known as B'nai B'rith (Bad Breath), where he warmed to his task and said, "We should be able to help find relationships expressive of true brotherhood and recognition of the fact that other civilizations than our own have immense values. We perhaps have material and technical things to give. They also have things to give. And if we are wise enough to take what other civilizations have to offer the balance struck between us will not be one-sided."

It is as clear as daylight, of course! The way to save the West is to commit suicide! Let us give ourselves away forthwith. Let us give our treasure to the natives of the Congo and our blue-eyed daughters to the natives of Harlem! Let us give everything away in one grand, final orgy of "equality" and "brotherhood" and then depart this life forever! Be generous--that's the way to "maintain (the) solidarity of the West," as the Perfesser expresses it.

RIGHT respectfully suggests that the first thing we might give away under this promising new program is Perfesser John!

And the sooner, the better!

ADDENDUM: Traitors and irrational fools can never be made to see that The Issue is East versus West until it is much too late. The Issue is preservation, not integration. It is pride, not shame. It is courage, not cowardice. It is survival, not suicide.

The Issue is West versus East, not West into East.

Flash! A RIGHT SCOOP! EXCLUSIVE: Anne Smart, 7 Liberty St., Larkspur, Cal., who has earned the bitter hatred of progressive "educationists" for her exposure of pornographic books in her local high school which were placed there by subverters in order to destroy American youths, has been quietly ordered by the Postmaster General to immediately cease sending "obscene" material through the mails or face stern punishment! This "obscene" material consists of verbatim excerpts from the books themselves! (One of the worst of the books is by Richard Wright. More of him later.) Apparently, the book publishers are to be allowed to continue to send the books through the mails to the schools which order them. Note the typical communist tactic of applying a double standard: One standard for Anne Smart, who is anti-communist and a patriot; another standard for the well-heeled promoters of the communistic filth.

Flash! ANOTHER EXCLUSIVE: A federal court in Washington has just handed down a decision which, in effect, gives official sanction to Maj. George Racey Jordan's charge that traitors in Washington, during the war, shipped expensive mining equipment, confiscated from American citizens, to the Russians so that they could dig Uranium!

WPB Order L-208, issued October 8, 1942, requisitioned certain gold mining equipment giving as excuse the lie that it was vitally needed for strategic copper mining. This seizure of private property shut down 200 mines in California alone, and made many ghost towns. Instead of being used to mine copper, however,

the equipment was spirited off to Russia **3** where it was used to mine Uranium! After the war, upon learning how **3** they had been victimized, the gold mine owners sued the federals for damages, and they have just won their case. The decision will force the poor taxpayer to pay the mine operators between 200 and 300 million dollars--and all because of wartime treason!

PATRIOTIC PROFILES: Whereas the only bone of contention on the Left is "Stalinism" (they all agree on a form of marxism) the Right is rich-hued in its variety. Whether this variety strengthens or weakens the Rightwing is a point of controversy. But the personalities within the Right are as diverse as life itself, though they are, God love them, all 100% American. Take Robert LeFevre and Lawrence Dennis as examples. It would be hard to find two men whose economic thinking is as widely diverse, yet all in all their similarities outweigh divergences.

To start with (though this will shock **RIGHT's** readers) both of these men are bigamists! For besides each being married to a lovely and musically-talented woman these two men are married to two principles: LeFevre is married to the stern goddess of human liberty and Dennis is married to the demanding nymph of nationalism!

DENNIS

Here are two quotes which sum up LeFevre: "The Libertarian philosophy is the study of man's nature, his individuality, his gregariousness, his economic abilities, his political foibles. The Libertarian philosophy is the concept of unlimited freedom and limited government. It is opposed to all kinds of collectivism. It favors bedrock Americanism." "Government is evil to the extent that it uses compulsion and, like other evils, unnecessary."

Dennis' most famous quote also sums up his granite-like outlook best. Written in 1940 of the then-predicted success of Roosevelt's war mongering, he said "As soon as we enter the war I shall try to join up in any capacity in which I shall be found most useful. If I am found too old or incompetent for line duty . . . I shall be delighted to serve my country with its war propaganda. I am just as ready to lie as to kill for my country. Any ethic which does not put a man's country above all else is a stench in my nostrils."

LEFEVRE

Both men are brilliant writers; LeFevre being the editorialist for the Colorado Springs, Colo. Gazette-Telegraph and Dennis being the author of such prophetic books as The Dynamics of War and Revolution and publisher of The Appeal To Reason, Becket, Mass.

Both men are self-made and are therefore hardheaded realists. LeFevre, besides being a noted philosopher and prophet of Freedom is a natural-born leader and organizer and was primarily responsible for the success of the San Francisco CONGRESS OF FREEDOM which held in 1955, severely criticized the UN. Dennis managed to acquire a Harvard education, served in the AEF in 1917, worked for the State Department for seven years, resigned to join a Wall Street banking firm and retired in 1930 to write.

If consistency is a virtue, these men are saints. Take Dennis, for example. One of the superb martyrs at Roosevelt's faked and phoney "Mass Sedition Trial" of 1944 when the Roosevelt Communists persecuted 30 patriots for their anti-in-

terventionism, he is no more favorable **1** to overseas adventuring now than he was then. In a recent Appeal, he said, "The present function of American meddling all over the world is to build up and activate colored war unity against the whites and to expedite racial integration and assimilation in this country. Well, the Southern internationalist followers of Wilson are certainly getting what they asked for . . . and Ike is just the type to preside over it all. He does not understand what it is all about."

The differing outlook of the two men can be seen in this example: Both are utterly against the UN. But whereas LeFevre objects primarily to the restrictions on liberty that the UN bureaucracy would place on the individual, and the communistic slant of its activities, Dennis criticises the outfit for its general stupidity and unrealistic approach to history.

And there are two even more convincing ways to prove that these leaders are on the same side: The ADL has attempted to taint them both with the smear of "anti-Semitic," though, needless to add, neither have ever written or spoken against the Jews. Furthermore, neither LeFevre nor Dennis have ever been granted so much as a thin dime from the Ford, Rockefeller or Carnegie Foundations!

FROM HERE, THERE AND 'MOST EVERYWHERE: While the liberals continue their well-financed and well-reported bawling about the mythical "persecution" of numerous traitor scum their typical hypocrisy prevents them from bringing their vast resources to the aid of real martyrs who--at this very moment--are being railroaded into prison or worse by corrupt federal courts. Hero Lucille Miller (Bethel, Vt.) who, with her husband Manuel is fighting a single-handed battle for the Constitution and freedom, writes to **RIGHT**: "Our appeals were turned down. . . It's very flattering to be the victims of a news blackout but rather inconvenient too as it makes for much letter writing. . . We may be in prison by the time you get this but whatever happens we know we hurt the communists real bad so it will be worth it." . . In the May 2 issue, National Review carried a superior article "Why does the World Hate America?" Conclusion by author Ray Cartier: "One, Americans are white; two, they are rich; three, they are the richest of the white peoples--three indelible facts which insure them, no matter what they do, the unfavorable prejudice of a majority of the world's inhabitants." . . The extreme Leftwing Nation reviews Richard Wright's latest book, The Color Curtain. Wright, who is colored himself, is a veteran redfronter and author of books declared obscene by the Postoffice. Now he generously tells his "solution," which sounds as if it is the source of Secretary Dulles' ideas: "The West must abandon all assumptions of racial superiority (and) an economic levelling-up must be accepted voluntarily. The white Westerner will have to accept . . . a much, much lower standard of living for that is what the de-Occidentalization of present-day mankind will bring about." In other words, SUICIDE is the answer. And these idiots are the ones calling us "mentally ill!" Pass the aspirin, please. . . Incidentally, be sure and read The True Story of Red China in the May 18 U.S. News & World Report. By an old China hand, it says things like "What the (West) faces is a monstrous bloc of 900 million people. . . What Napoleon dreamed of and Kaiser Wilhelm warned against--the yellow masses controlled by a predatory power--has at last come true!" This sounds like a **RIGHT** editorial! . . See April Southern Conservative (Flatiron Bldg., Ft. Worth). Quoting from an Eastland Report which, in

turn, quotes Fred Smith, onetime Assistant to Secretary Morgenthau, this astounding revelation comes to light: **5** "On August 7, 1944, in a tent in southern England, the Morgenthau Plan was born. Actually it was General Dwight D. Eisenhower who launched the project!" And to think that we've all blamed it on Harry Dexter White! . . . Austin Howard, 430 Hawthorne St., Glendale, Calif., has a brochure out selling for \$2 per 100 giving many little-known facts about the person in the White House. . . In the May Faith and Freedom (1521 Wilshire Blvd., Los Angeles 17) Gerald Heard packs an atom bomb in the middle of a terrific article. Correctly states Heard: "Certainly Genetics, the science of inheritance, has proved the inequalities of men. . . Whether (this) is undemocratic or no it is certainly unsocialistic. . . Men are unequal." Such plain talk, to date, has been too much for many Rightwingers who prefer to steer clear of the subject entirely. . . HOW ABOUT THE NEW BRICKER AMENDMENT? many Rightwingers are asking. Is it good? Opinion is divided but the VIGILANT WOMEN FOR THE BRICKER AMENDMENT (Route 4, Oshkosh, Wisc.) to date strong supporters, have come out opposed to the new version, claiming that it is insufficient. Not all Americanists agree with this view. Write Frank Holman, Hoge Bldg., Seattle, Wash., for arguments in favor of it. . . Congressman H.R. Gross (R, Ia) inserted into the March 13 Record an article in the VETERANS OF FOREIGN WARS Newsletter which criticizes the Internal Revenue Service for their biased stand in refusing to grant tax-exemption to FOR AMERICA while such Leftwing outfits as the Atlantic Union Committee, Urban League, AJC, AAUN, NCC, NEA, American Friends Service Committee, Ford Foundation, ad nauseum, have the privilege. . . Talmadge's recent statement of support for Stevenson hit many of his backers like a bombshell. While many entrenched Southern politicians fiddle, however, the South-hating radicals are burning with plans to scuttle the Dixiecrats and it begins to look as if the South will be unceremoniously thrown out regardless. Reuther makes no bones about it: "You cannot have Mr. Eastland and us at the same time;" and Trotskyite weeklies like Labor Action and Weekly People demand the isolation of Dixie.

BOOKS THAT ARE RIGHT: Americanist religious leaders are striking back with vigor at the unChristian and satanic doctrine of integration, so at variance with God's Word as revealed in the Holy Bible. Deprived of the huge funds which would be provided for them as a matter of course were they to advocate the communist principle of forcible integration, they are turning to cheap pamphlets and booklets to spread the truth.

the main themes of the book as well as **RIGHT's**. Just out May 19. 176 pages.

IN NATIONAL CONVENTION ASSEMBLED, the CONSTITUTION PARTY on August 28 drafted Virginia's T. Coleman Andrews and California's Thomas H. Werdel to run on their ticket in the coming Presidential contest. The CONSTITUTION PARTY is now organized in fifteen states and was represented in the convention by ten. Sixty-five accredited delegates and approximately 300 others attended.

Next for this rapidly-growing group is a Memphis meeting, to be held on September 15 with representatives of other states' rights groups. Box 8181, San Antonio 12, for information.

ALSO TO MEET IN SEPTEMBER is WE, THE PEOPLE, which expects a turnout of some 1000 registrants at the Conrad Hilton Hotel, in Chicago, over the 15th and 16th. Not a political party, WTP nevertheless has plans for ACTION and has made giant strides forward since its first national meeting, last year. Persons wishing to attend should write 111 N. Wabash Ave., Chicago 2. This CONSTITUTION DAY CONVENTION is being co-sponsored by the AMERICAN REAL PROPERTY FEDERATION, CAMPAIGN FOR THE 48 STATES and CONGRESS OF FREEDOM, besides WTP.

GOV. J. BRACKEN LEE VISITS THE CONSERVATIVE REPUBLICAN HEAD-QUARTERS IN SAN FRANCISCO. UNDER TWO HUGE PICTURES OF LINCOLN AND TAFT, HE EXPLAINS HIS STAND AGAINST THE INCOME TAX.

EXCLUSIVE: Direct from persons closely associated with the White House come the following three items. **RIGHT** cannot vouch for them, only reports them:

(1) President Eisenhower fully expected to withdraw from the nomination until only a few days before his flight to San Francisco. He changed his mind because strong rumor had "leaked."

(2) Ike planned to unveil a world-wide WPA plan in his acceptance speech but was advised not to at the last moment because of indications of grassroots Republican revolt against such socialistic doings. The plan, however, which was dreamed up by brother Miltie,

has been put in mothballs. It calls **2** for an "End Poverty on Earth" crusade, in which the federal government would supply one-third the cash, another third to be provided by American corporations, with their investment guaranteed by the government, and the final third to be provided by other nations.

(3) Ike plans to step out of the race before November.

A SPECIAL RIGHT REPORT: If you happened to be listening at the right time the other night you may have caught on your radio a rather unexpected statement. An Archbishop C. C. Addison was quoted as saying that the NAACP is a fraud; that it was dominated by White men and that its policies were communist-inspired.

It is not the unquestioned truth of this statement that makes it so interesting but rather the fact that it was allowed on the radio. If your ears picked up the significant fact that Archbishop Addison is a Negro, this may have explained the matter to you.

The Negro nationalist movement has a long, fascinating history; considerably longer than the NAACP-communist movement for integration. The alert student of this suppressed chapter of the American story will come to the probable conclusion that the plot against civilization is much worse than he had imagined because the fact will emerge that the drive to mongrelization promoted by the NAACP and related groups is not only contrary to the desires of the White man but also to the desires of the Black man!

Absolute proof of this extreme-sounding statement is seen by comparing the support that the NAACP has been able to drum up among Negroes, with the following of Marcus Garvey, a Jamaica Black who—only three decades ago—inspired perhaps six million of his co-racialists to support his back-to-Africa crusade. The membership of the NAACP is only about 300,000 persons, most of whom are either white or very light-skinned! For more information on Garvey and his abortive movement, see Black Moses, by E. D. Cronin. (Univ. of Wisc. Press, 1955) Written by a liberal and therefore inaccurate in many instances, the book is nevertheless valuable for its revelation of a whole new and practically virgin field of Rightwing activity.

The important thing that the history of Negro nationalism to date has to teach the Rightwing is that its failure is the result of the failure of the American White man to support it, and certainly not the result of the failure of the Negro to respond to pan-Africa emotionalism.

It is without doubt true that the supremacy of the NAACP and its policies is solely due to its promotion by White subversives, who are still in complete control of the movement. Had any Negro nationalist group ever received a fraction of the support that the NAACP has, there would be no race problem in America today.

Only one White man has consistently supported these worthy Negroes in their fruitless quest for independence and self-determination, and that unsung hero is Col. Earnest Sevier Cox, of Richmond, Virginia. (924 E. Main Street) Cox has stuck by these groups through thick and thin. A truly original thinker and author in his own right, here is a man who will go down in history as

one of America's greats.

Of late, more Rightists are ex- **3** pressing interest in Negro nationalism, seeing in it a solution to many problems. One group, the JOINT COUNCIL FOR REPATRIATION, (Box 67, Sausalito, Calif.) even sees the cure for the growing agricultural and industrial surplusses in the proposed repatriation program and suggests that each Liberian pioneer be given \$1000 worth of farm and factory products each year for his lifetime. This, they argue, would be much cheaper than foreign aid and it would solve economic and social problems instead of create them. In addition, it would offer a great incentive to families which otherwise might not be attracted.

Here are the names and addresses of the five leading nationalist groups:

- (1) AFRICAN UNIVERSAL CHURCH, 3802 3rd Ave., New York 57. President-General, Archbishop C. C. Addison.
- (2) CHURCH OF THE ETHIOPIAN WORLD FEDERATION, Inc., 3323 S. State St., Chicago. Winston G. Evans, Executive Secretary.
- (3) PEACE MOVEMENT OF ETHIOPIA, 4451 S. State St., Chicago. President-General, Mrs. M. M. L. Gordon.
- (4) UNIVERSAL AFRICAN NATIONALIST MOVEMENT, Inc., 102 W. 116th St., New York 26. Benjamin Gibbons, President.
- (5) UNIVERSAL NEGRO IMPROVEMENT ASSOCIATION, Box 160, Monrovia, Liberia. James R. Stewart, President-General. (Although headquartered in Africa, this group is organized in the U.S.A., too.)

Each of the above have their own history and goals. But their interests are common in that they fight for a chance for the Negro to stand on his own two feet. There are individuals, too. For instance, Samuel A. Davis, of 2430 S. State St., Chicago, is a prolific writer on repatriation from the religious viewpoint. Davis declares that his people are descended from the lost tribes of Israel and finds biblical passages to show a great and independent future in store for the Negro race. Then there is J. W. Jones, the owner-publisher of the New Albany, Mississippi Community Citizen, who heads an anti-NAACP group called the NEGRO AMERICANS, and who minces no words fighting NAACP subversion.

Planned for November by the UNIVERSAL AFRICAN NATIONALIST MOVEMENT is a "Big Meeting" in Washington. The purpose of this demonstration will be to press for the passage of S 276, a bill introduced by Senator William Langer at the behest of many Negro nationalist groups. This Bill is designed to aid persons desirous of emigrating to Liberia. The plans for this giant demonstration seem well-thought out and are certainly worthwhile. The NAACP, incidentally, has formally announced its opposition to this Bill, proving that it has only one interest: troublemaking and only one aim: mongrelization.

JORDAN WHIPS NATIONAL BROADCASTING CO.

Makes Multi-Million Dollar Corporation Eat Their Words

Major George Racey Jordan, two-fisted patriot who never lets overwhelming odds stop him, has just won a smashing legal victory over the National Broadcasting Co.

WAR SCARE HURTS PROTEST VOTE

The protest national protest vote against both major Party Presidential contestants ran to at least 300,000 and perhaps to 400,00 or more. In only South Carolina and Tennessee did the third Party ticket hold the balance of power.

Full information will be available in December; until then, here is a conservative and incomplete tally of eight States with a protest ticket on the ballot: Ala., 18,000; Ark., 43,300; La., 41,000; Miss., 38,000; S.C., 87,400; Tenn., 20,000; Tex., 12,000; Va., 41,500. Add to this six other States with a ticket on the ballot plus many thousands of write-ins in the remaining 30 States.

Obstacles placed in the path of Constitutionalists were many and varied. The press was generally hostile and usually ignored the movement altogether. In some localities, officials tried intimidation or trickery to keep patriots from voting such as in New York.

Here are three Rightwing comments: Humphrey B. Neill says that "the majority vote in America is a liberal, left-veering massive vote." Harry T. Everingham, of WE, THE PEOPLE, said, "Our greatest need is broad education. Even many who are instinctively conservative need to be further enlightened and activated before they will need any call outside their old Party." Philip Lee Eubank, CONSTITUTION PARTY National Chairman points out that in Texas, where the Party is strongest, the Presidential ticket received less than one-third the votes that State and local

Back in 1952, announcer Irving R. Levine (who is now reporting from Moscow) told the network's listeners that Congressional hearings had "discredited" Jordan's documented tales of Communist subversion in Washington. Jordan promptly sued Levine, NBC, Morgan Beatty and Alka-Seltzer for \$250,000, since Levine's statement was a falsehood.

In spite of the advice of apprehensive friends, who pointed out that NBC's huge financial resources and powerful allies would enable it to prevent a fair decision from being handed down, Jordan stuck to his guns, believing that the truth would eventually win. And it did.

Now, David Sarnoff, NBC head man, has not only been forced to pay off a fat settlement to Jordan but offered him \$5000 extra if he (Jordan) would please save NBC the embarrassment of a public retraction. Jordan, feeling that the extra \$5000 of NBC's money would enable him to spend that much more on patriotic work, accepted the offer.

A little background might not be amiss. Irving R. Levine is well-qualified to report on Red Russia as he is suspected to be the same Irving Levine who was an elector for the Communist Party in Pennsylvania in 1940. As for Sarnoff, he is well-known as a censor of pro-American viewpoints over his network.

candidates received! This strange fact emphasizes the unusual nature of the election.

THE RIGHT LINE (An Editorial) DON'T MISUNDERSTAND IKE

Those Americans who are capable of remembering events before their last payday and who sometimes think beyond their next must have had a feeling of "this is where I came in" as they listened to President Eisenhower on October 31 as he promised to keep them out of war.

It is not really strange why an American President talks like an isolationist when he is trying to get re-elected but acts like an internationalist the rest of the time. No, this is not strange at all to anyone who has even a partial understanding of the sub-rosa forces which shape American destiny.

It is traditional for a President to promise "again and again and again" to keep American boys from being slaughtered fighting in wars which have no concern whatsoever for American vital interests. This is only good Machiavellian politics, and it elected Woodrow Wilson in 1916, Franklin Roosevelt in 1940 and Dwight Eisenhower in 1956.

It is also traditional for a President, when he is safely re-elected, to set about to involve us in war at his earliest convenience. Not necessarily because he is a devil (though one who is familiar with the facts of Roosevelt's and Eisenhower's character might dispute this) but because he is forced to do so by secret commitments made previously to powerful interests who, in turn, gave their political or financial support to the aspiring candidate.

To be more specific, Wilson was the tool of the British and the Zionists and the international bankers, all three of which were dedicated to the proposition that there was no room in the world for both German and English imperialism.

Roosevelt bowed to the same three that Wilson did, with the addition of the international Communists, who probably acquired as much influence as the other three together. Again, all of these subversive forces were agreed that Germany must fail and that America should do

the job.

And now Eisenhower finds that not only must he attempt to placate the above-named four power factors but a completely new one has sprung up: namely, the vested interests in the Middle East oil fields.

This latter force is the strongest of all in the Eisenhower Administration, let no one be deceived about that. It is here where we can find the key to the Eisenhower foreign policy.

Many Rightwingers have made the serious error of attributing to Ike credit for a *pro-American* anti-Zionist foreign policy whereas actually he has been following a *pro-Standard Oil* anti-Zionist policy.

Dwight Eisenhower has no more concern for the national interests of the United States now than he had in the past, or than Woodrow Wilson, Franklin Roosevelt or any other internationalist has had for America. But because the investments of the House of Rockefeller (and others) in the black gold of the Middle East must be protected at all costs, he has been forced to slap the wrists of the Israelites once or twice.

The Arabs must thank Allah every night for Standard Oil. Were it not for them and their oil fields, Eisenhower would long since have sent American boys to their land to bomb and butcher them, and get bombed and butchered in return. After all, aren't the Republicans committed to the "preservation" of Israel?

But what is good for the Arabs or Standard Oil or Israel or the English or the Suez Canal is not necessarily good for the United States.

Let not the Rightwing ascribe to Ike any motives of placing American national interests first and foremost. Dedicated internationalist that he is, he would be the first to deny such a dastardly charge, now that he is re-elected.

TO KEEP OUT OF WAR, DON'T GO IN

The expenditure of billions of dollars on internationalist propaganda has done its subversive work well. Indeed, there are relatively few Americans left who are able to think at all

rationally about such easy-to-understand things as war and peace and foreign policy.

Let us have some definitions. A nation is at war when it fights with arms against another nation or group of nations. It is at peace when there is no such fighting. Foreign policy is the will of the nation expressed in its relationships and activities with other nations. There is one goal of foreign policy and one alone: that is, the best interests and survival of the nation. There is only one object and purpose of war: Victory. If victory cannot be had, or if it seems improbable, it is stupid and irresponsible to go to war.

There is not and cannot be any such thing as "enforcing peace," or "fighting for peace," or "policing trouble spots" to protect the status quo or "avoiding great wars by stopping small ones by the force of arms" in the name of "peace." It is not difficult for the average person to realize that this is, in itself, war.

A nation can never keep out of war by going to war. History shows that the way to get into a big war is to first get into a small one; Anthony Eden, Dwight Eisenhower and other imperialists and internationalists to the contrary notwithstanding. All big wars must necessarily begin with a small incident. The way to keep out of war — OBVIOUSLY — is not to go to war.

The lunatic delusion of "collective security" and "massive retaliation" and other products of the diseased liberal mind are founded on fraud, dishonesty, hypocrisy, subversion and ignorance. They do not exist now and never have existed. They are suicidal hallucinations which are rapidly driving America toward a third World War — and a third World War, moreover — in which we would have scant chance of victory.

America's vital interests are not in the oil fields of Jordan. Neither are they with the Suez Canal or with the preservation of the bastard state of Israel or the British "Empire". America's vital interests are and always have been in the Western Hemisphere. *The Lie that America*

must forever involve herself in all of the troubles of the world is itself the cause of 95% of these troubles. It is the biggest Lie in all history. It is paranoia.

As an excuse for their indecent eagerness to try and salvage their huge investments by slaughtering more American boys, our "world-improvers" stridently cry that we must "save the oil from the Russians." Yet the merest thought makes it crystal clear that the Arab nationalists have even less use for Russian-style imperialism (à la Hungary) than Western-style imperialism. OBVIOUSLY, the only reason that Russia has been able to involve herself as deeply as she has in Arabland are because of Western oil imperialism and because of the existence of the hated Israeli state — which the Arabs view as being created, financed and militarily backed by the governments of the West. Were it not for these two subversive factors, the Arabs would lose no time in shoring up their defenses against their natural enemy — Russia.

Only the blind and the corrupt cannot see the OBVIOUS; namely, that greedy and vicious money-grubbers and Zionists have implicated us deep within the coils of a terrible world situation, the only solution of which appears to some to be war.

The United States of America has no right or valid reason to interfere in the affairs of the Middle East, just as it had no right or valid reason to interfere in the European wars of 1914 and 1939 and just as no other nation has a right or valid reason to interfere in our affairs. This is the principle of nationalism.

If we are to stay out of war there is but one way to do it and that is not to go to war. It is that simple. It is not complex at all. Rather the seeming complexity has been invented by the tribe of anti-American forces which habitually and profitably confuse and misrepresent every political and social issue.

A nation cannot — and will not — stay out of war by going to war.

Those Fighting Men of God

One of the happiest developments of recent months in fundamentalist Christianity is the consolidation of the two powerful messages of Dr. Willard H. Pope and Dr. Billy James Hargis. From now on, Pope's *Prophetic Reporter* and Hargis' *Christian Crusade* have been merged into one new magazine, beautifully printed in two colors and carrying on each of its 12 pages many fine articles not only on spiritual matters but also on world and national politics. The new magazine sells for \$1 per year from P.O. Box 977, Tulsa, Okla.

Two months ago, "Parson Jack" Johnston, editor of the *Georgia Tribune*, repudiated Billy

Graham and this has caused other true fundamentalists to take a second look at the popular evangelist. Now, Dr. Noel Smith, Editor of the *Baptist Bible Tribune* (Box 106, Springfield, Mo.) recently published an article by himself entitled, "I Cannot Remain Silent on the Compromises of Billy Graham." He accuses Billy of taking advantage of situations to advance his personal ambitions.

Dr. E. F. Webber's magazine, *Truth*, always has many good articles and reprints. In the October number, Frank Kirkpatrick writes, "Those in our federal government who made possible the Communist advance at U.S. expense are still there." Dr. Webber, whose radio messages are heard by millions, will send a copy of his radio

schedule on request. Box 1144, Oklahoma City, Okla.

BELIN MEMORIAL UNIVERSITY, Chillicothe, Mo., is a "lusty growing, crowing infant" which is making great strides ahead in its development plans. Writes Dr. Don Hare, "We believe that we are establishing a pattern and setting the pace for a brand-new Christian economy in America . . ."

Also growing rapidly is the FREEDOM SCHOOL, Bob LeFevre's brainchild, which is taking shape on the colorful landscape of Colorado, thanks to the hard-working sinews of volunteers. For a free brochure on this promising development, write Box 165, Colorado Springs.

Among the happy celebrants at the November 7 gala Communist blowout at the Red Embassy in Washington, which was thrown in honor of the 39th Anniversary of the Bolshevik Revolution, was the prominent trotskyite, William O. Douglas, who befouls the Bench of the American Supreme Court. The picture above, taken at the party, shows him shaking the bloody hand of Ambassador Georgi N. Zarubin, who is considered by Washington experts to be a "moderate" like his colleague, Marshall Georgi Zhukov, who at present is in charge of butchering tens of thousands of Hungarian patriot nationalists, or shipping them off to Siberia in cattle cars. Incidentally, reports persist that "moderate" Zhukov has been forced to forego his personal correspondence with "middle-roader" Ike Eisenhower because of the heavy work schedule he has in Hungary.

Rightist Intellectuals Take Offensive

Liberals have a way of corrupting everything they touch, and this has been so true in the field of thought that many normal persons have formed the habit of simply discounting in advance anything which sounds at all "scholarly."

However, this is a bad error, for in this respect, the case for the Right is strongest of all. In no field is this better illustrated than in the touchy one of race.

Of late, scholars like Dr. W. C. George, a Biology professor at the University of North Carolina, and Dr. Henry E. Garrett, formerly of Columbia, have made it abundantly clear that reasonable thinkers have no use for liberal delusions of racial equality. Garrett, a renowned

authority who has written many textbooks, has a non-technical article in the last Citizens' Council newspaper, available from 605 Plaza Bldg., Jackson, Miss.

Garrett, by the way, was a member of the committee in charge of the Army testing program for draftees in World War II. Although he and other members of that committee have since requested the Army to release the statistical data to them which they themselves gathered about racial mental differences, the Army has adamantly refused this, knowing that the truth about this tender subject would offend the powerful ADL and the NAACP, both of which have a vested interest in upholding the racial equality lie so as to bring on eventual mongrelization and degeneration of the races.

In the November *Atlantic Monthly*, the editors graciously permit Herbert Ravenal Sass to write an article entitled, "Mixed Schools and Mixed Blood," which is a statement of the race issue as seen by a Southerner. It is followed immediately by one Oscar Handlin, a Harvard prof who attempts to confuse and misrepresent the issue with the usual liberal gabble. Propounds Handlin, from the village fastness of Cambridge, Mass., "The haunting specter of racial amalgamation corresponds to nothing in the world of actuality."

In a syndicated article, conservative columnist Holmes Alexander has some wise comments on one of the favorite liberal catchwords, "prejudice." Says Alexander, "Nor is it wise to speak disparagingly of Southern 'prejudice' as if it were some bestial indulgence. A good many famous political thinkers, including Edmund Burke and Irving Babbitt, have rated prejudice as the highest form of wisdom. It is, of course, the accumulated findings of the ages. It comes directly from experience, not from books. It represents folk knowledge and tribal instinct, these being a far higher form of wisdom than anything produced by an individual, no matter how gifted and learned." This same thought is one of many which is brought out by Byram Campbell's scholarly and controversial book, *World of Oneness* (\$3.50 from PACIFIC BOOK CO., 260 Kearny St., San Francisco 8).

Taking the "bull" (and it really is "bull"), by the horns, Dr. E. L. Anderson (Box 67, Sausalito, Calif.) wrote an open letter to a UCLA professor named Clement Meighan in which he brands Meighan a propagandist for his senseless stand on the race issue. Anderson calls upon the Trustees of UCLA to fire Meighan for incompetence. Anderson's letter is of value because of its detail in refuting Meighan's contentions regard-

4

ing race. Anderson is also the author of an article in October *Virginian* (310 53rd St., Newport News, Va.) in which he proves that the NAACP is viciously anti-Negro! (The same issue of this paper has a report on the shameful mess created in the schools of Washington, D.C. by the Administration's integration order. This stupid experiment has ruined the education of thousands of White children, besides creating crime, delinquency and sex problems galore. A free copy of this aggressive publication is available for the asking.)

The South African Observer, a magazine published at P.O. Box 3638, Cape Town, South Africa, each month carries an article by Anthony M. Ludovici, noted scholar and author. Other features of this 16-pager are reports on the racial front all over the world, done in a first-rate fashion. The favorable exchange rate must account for the low annual subscription price of \$1.50.

TRUTH ABOUT SUEZ NOT KNOWN

Although generally speaking it is unsafe to make flat statements or broad generalizations about the Middle East and Eastern European situations because so much is being concealed from the people about them, nevertheless many interesting facts have already emerged and doubtless more will come to the surface later.

For instance, Peter J. Huxley-Blythe (37, Wensley Ave., Fleetwood, Lancashire, England) who is the author of *Betrayal*, the hard-hitting expose of English and American pro-Communist perfidy at the end of World War II (50¢), reports from England in the monthly periodical *World Survey*, that "Sir Anthony Eden . . . was fully aware that nationalization of the Suez Canal would follow shortly after the withdrawal of British troops from the Canal Zone."

Inform, authoritative intelligence digest put out at 3 W. 23rd St., Baltimore 18, Md., reports that there is — or was — a "deal" on between the Kremlin and the West to the effect that Russia would not intervene in the Middle East if we would not stir up trouble in Eastern Europe. That this is — or at least was — probably true seems to be confirmed by a cryptic comment in the November 2 *U.S. News & World Report*, which says, "Before the uprisings in Poland and Hungary, rumors were going through the chancelleries of Western Europe that the U. S., after the November elections, would be ready to deal with the USSR on the basis of Soviet domination of Eastern Europe." All of this fits perfectly with the pro-Communist foreign policy which has been followed

by the "chancelleries of Western Europe" and the U.S.A. so it is probably true.

The explosions in Poland and Hungary and the resulting Russian brutality plus the Chinese offer to send "volunteers" to Suez have put the cork temporarily on the Administration's plan to scuttle Chiang and press for admission of Red China to the UN, RIGHT's Washington correspondent surmises. Public opposition to such an attempt would be too bitter at this time.

Persecution of the Right

Lucille Miller writes that her husband, Manuel, who is locked up because of his refusal to kowtow of official corruption and lawlessness, is being subjected to "corrective therapy" in Danbury Prison by Warden Harold Haegstrom. This "therapy" consists of, reports Lucille, "the use of drugs to alter or abolish the political outlook which led to the 'crime'." This "crime" consists of exercising freedom of speech, as Warden Haegstrom offered freedom to Manuel if he would "promise to quit the *Green Mountain Rifleman*, the anti-communist paper the Millers publish at Bethel, Vt.

Taylor Caldwell, world-renowned authoress, recently visited Europe and the Holy Land. While in France, she was feted by a great party given in her honor, which was attended by thousands. This was front-page news in all the French papers but nary a word came out in American papers. Nor did American papers bother to note that she was offered the Legion of Honor. As she says, "Had I been a Leftist writer this would have been front-page news in America." An understatement. She would have found her picture on *Time's* cover! And her life story would have been bought by *Life* for \$100,000!

FROM HERE, THERE AND EVERYWHERE:

The double standard, against which liberals and Zionists inveigh so mightily when it suits their purposes, is a matter of policy with the federal government when it comes to Israelite bonds. Points out *Closer Up* newsletter (P. O. Box 2223, Palm Beach, Fla.) "Every contributor to these bonds is guilty of violating Title 18, Criminal Code of the U.S., Section 13" which makes it a crime to "furnish money for a war against a Power with which the United States is at peace." . . . The CAMPAIGN FOR THE 48 STATES, headed up by dynamic, successful businessman Robert Snowden, is moving ahead with its large-scale plans to re-establish America on a Constitutional foundation. Planned to begin in January are television shows in 255 cities across the Nation. But there is more

to it than that! Send to Box 1112, Memphis 1, Tenn., for free literature . . . The dangerous fluoridation fraud has been defeated in some 200 towns and cities. For a list of these lucky spots, write Rollin Severence, Box 850 Saginaw, Mich. . . . *The Virginian*, up-coming States' Rights paper edited by young Bill Stephenson, is making a novel service available to readers. A classified section will be offered in which patriots can advertise books, pamphlets, meetings, etc. for only \$2 per column inch. Write 310 53rd St., Newport News, Va., for data . . . A free list of over 300 organizations which have been declared "subversive" by the Attorney General is available from Col. Sidney S. Rubenstein, Deputy Director, Office of Personnel Security Policy, Secretary of Defense, Washington 25, D.C. Oddly, about a dozen of these groups appear to be Rightist, pro-American groups! . . . What, anyway, is capitalism? In *Christian Economics*, renewed libertarian paper which goes to thousands of clergymen and is available for \$1 per year (26 W. 58th St., New York 19,) Percy Greaves defines it thusly, "Capitalism is that form of social cooperation wherein men save by voluntarily consuming less than they produce." In his provocative *Appeal to Reason*, (Becket, Mass.) Lawrence Dennis quote an English author as saying, "The definition of capitalism in terms of ownership has wholly lost its significance and interest." This conclusion — with which Dennis agrees — is brought on by the effect of high taxes . . . The *Augusta Courier* (Southern Finance Bldg., Augusta, Ga.) is already boosting Herman Talmadge for President in 1960. Talmadge alone "truly represents the heartbeats of the Southern people."

Ludovici, the English scholar whose thundering denunciations of democracy have smarted the ears of many a liberal and even some conservatives. Ludovici demonstrates that the principle of equality is freedom's most vicious enemy, and he prescribes a government of select aristocrats as the cure. (The American Republic, as established by the Founding Fathers, was just such an oligarchy, though Ben Franklin and others warned that it would degenerate into a democracy.) ACTION THE KEYNOTE AT WE THE PEOPLE MEETING

It is doubtful if ever in recent history has there been a meeting of such significance to rightwingers as that which took place in Chicago over the weekend of September 17. It was enough to make even the most pessimistic patriot lift his eyes once again to the hope that Americanism and Constitutionalism can be substituted for the alien growth which has sprung up in Washington.

For at that time, over six hundred patriots from all sections of the country met in dogged determination to form some sort of political strategy and ACTION group capable of counteracting the imposing array of totalitarian Dealers lined up against all anti-marxists and nationalists. It is a fact of great importance that this intention was fulfilled.

In attendance were most of the leading patriots of the country. Rather than list some, and inadvertently omit others, we will not list any. However, just think of almost any name in the FIRST NATIONAL DIRECTORY of "Rightist" Groups (\$1.75 - order from RIGHT), and chances are that that person was in attendance!

The meeting itself was an excellent demonstration of what leadership and good will can do to overcome the built-in weakness of the rightwing: disunity. This leadership came from many sources, but greatest credit should perhaps be given to Harry Everingham, Jerome Joachim and the two Committee leaders, E. Gordon Fox and Elmer V. McCarthy, all of whom proved their ability and patriotism.

The whole Convention was exceptionally well-organized, from arrangements for the various affairs and Committees to efficient handling of literature, etc. This in itself deserves praise and shows first-class organizational skill. The two Committees, one apiece on Platform and Strategy, met with delegates from 38 states in attendance. From each came a powerful Resolution containing the results of the close study and intense debate in which the delegates had engaged.

The high point of the meeting came on Sunday, September 18, at which time the Resolutions were presented to the body as a whole. Then was the

CONGRESS OF FREEDOM ANNOUNCES DALLAS THEME

Timing their meeting with the We, The People conclave, the Board of the Congress of Freedom also deliberated in Chicago. On the agenda were various matters, among which were further plans for the next Congress, to be held in Dallas next April. Among others, the following important resolution was adopted:

Because we feel that everything else is being placed ahead of freedom, it is the sense of the Board that the program theme for the 1956 Congress of Freedom be "Constitutional Freedom First," embracing: (1) The Bricker Amendment, (2) The UN, (3) Repeal of the 16th Amendment, (4) Tax-free and/or other subversive organizations, (5) The freeing of our falsely-held POW's in China and elsewhere, (6) The sacrifice of freedom resulting from our foreign policy of appeasement, (7) Such other subjects as the Program Committee shall deem necessary.

Soon to be published by the Congress is a book, entitled, "The Truth About the UN." This will contain the complete results of the panel meetings and transcripts of the speeches which took place at the recent San Francisco meeting. The book will sell for \$3 apiece. Those who have paid \$5, the figure originally set, will receive two copies. This book will be the first and only comprehensive, documented and detailed criticism of the United Nations which has yet appeared.

Elected to the Board were Mr. W. L. Foster, of the United States Day Committee, Mr. Dan Smoot and Mr. Harry Everingham. To the National Advisory Committee were added Mr. Milton Lory, past President General, Sons of the American Revolution, and Mr. Robert LeFevre, former Executive Director of the Congress of Freedom and now editor of the Colorado Springs Gazette Telegraph.

Mr. George Thomas, Executive Director, announced after the meeting that other very important matters were acted upon. The present upsurge of patriotic feeling among large groups of Americans has brought with it many new ideas to increase the influence of and degree of cooperation between pro-Constitution groups. It is hoped that an an-

2

nouncement of extreme importance can be made in the near future.

The address of the Congress is 1330 Turner Blvd., Omaha 5, Nebraska.

NEW STATES' RIGHTS GROUP

Surging up like a new mountain range from the troubled bed of an otherwise calm sea, the States' Rights movement gives birth to a new organization every time one glances Southward. A very well-written and attractive paper called "The Virginian" has made its appearance in the Old Dominion state. The paper, devoted to the noble ideals of many of the truly great Americans of history who originated from Virginia, costs \$3 per year and is published monthly. It is now in its third issue.

The group publishing "The Virginian" is the Virginia League and the offices are located at 927 16th St., Newport News, Va. The editor, William Stephenson, is a young man who is also president of the organization.

TRUMBULL PARK

Chicago's troubled Trumbull Park housing development continues to serve as a truly amazing example of what good and ordinarily undisturbed Americans can do to fight dictatorial and corrupt politicians who assume authority over the living conditions and the neighborhood of free people.

These hard-pressed patriots have been literally backed to the wall by the combined force of 360 policemen every 24 hours. The residents are determined that, come what may, the cultural standards of their neighborhood shall be maintained and undesirable tenants will never be welcomed. Now going into their third year of battle, they are more united than ever. The brainwashers, Reds and other assorted alien ilk are learning that Americans can only be pushed so far, thanks to the Trumbull Park epic.

A new weekly paper, called the "South Deering Bulletin," is being published in order to break the stranglehold of censorship which has been effortlessly imposed on each and every Chicago newspaper by the brainwashers.

A free copy of the paper can be had by sending a three cent stamp to Mr. Joseph Gornick, Secretary, South Deering Improvement Association, 10202 South Bensley Ave., Chicago 17.

MONETARY CONFERENCE

Groups of monetary reformists have announced the holding of two National Conferences in Los Angeles over November 11 through 16. The first is the Economic Welfare Conference and the second is the Construction Surveyors Conference. For more information write Liberty Free Press, 1948 - 48th Ave., Oakland 1, California.

PROPOSED NEW PARTY

Indicative of the tremendous interest and activity being shown already in the forthcoming Presidential election, another new Party has just been formed by Kent and Phoebe Courtney, the publishers of the hard-hitting patriotic journal, "Free Men Speak." In a release mailed to all subscribers, the Courtneys announce that Lt. Gen. P. A. del Valle, the prominent and respected patriotic leader, has assumed the post of Temporary Chairman. As yet, the new Party has not been named and is referred to as the Interim Committee for a New Party. The address is P. O. Box 4168; New Orleans 18, La. In a newspaper release dated September 16, General del Valle stated, "There is no difference between a New Deal Democrat and a New Deal Republican. We voted for a change in 1952, which we didn't get. It's the same old New Deal Socialism, only now it goes under the name of 'Republican'."

The first meeting of the Interim Committee will be in October, at which time a tentative States' Rights, pro-Constitution platform will be drawn up. The party intends to organize in every state.

"Grass Roots Petitions for Leadership" are being circulated in order to make known to certain political figures of both parties that the time for the full-scale formation of a new party has arrived.

GEORGE RACEY JORDAN

CALLS FOR CONGRESSIONAL INVESTIGATION

Maj. George Racey Jordan, the patriot who was in charge of the Great Falls, Montana shipping point where all of our important military and technological secrets were sent during the last war to the Russians through the machinations of hordes of traitors in Washington, spoke in the San Francisco area this month. Maj. Jordan is now the Executive Director of the American Coalition of Patriotic Societies.

In an address sponsored jointly by the San Francisco chapters of the SAR and the DAR, Maj. Jordan called for a Congressional investigation to see if Washington Red-lovers are still allowing the Russians to purchase certain important parts for their MIG fighters in America. Maj. Jordan, whose unbelievable revelations concerning the extent of the wartime treason are fully documented, and which have never been refuted, stated that there is no reason to believe that such shipments have ever been stopped!

Maj. Jordan also made the pertinent observation that the enemy has been very successful in keeping patriotic groups "fractured, disunited and at each others' throats," so that an accounting of the full treason has never been revealed, let alone brought to the attention of the general public.

His book, "From Major Jordan's Diaries," can be purchased for \$3.50 from Harcourt, Brace & Co.

WILLIAM BUCKLEY ANNOUNCES NEW MAGAZINE

In an interview over State of the Nation on October 9, William F. Buckley, Jr., brilliant young author, stated that a new 32-page weekly publication, of which he will be editor and publisher, is to appear on November 1. The name of the magazine is to be the "National Review."

Mr. Buckley stated that he believes that the liberals should be taken seriously in their unctuous protestations that "all opinions" on public questions should be heard and therefore the "National Review" is being initiated. "There is one point of view not being expressed in the country and that is the conservative right," said Mr. Buckley.

CITIZENS' COUNCILS TO PUBLISH NEWSPAPER

The first Annual Report of the Association of Citizens' Councils of Mississippi contains announcements of the inauguration of a newspaper for that body. The Citizens' Councils are the group of states' rights organizations which now extend through seven Southern states and which have allied organizations in four more. The Councils have had the most phenomenal growth of any Constitutionalist organization in America because of their leadership and the gravity of the issues.

The new paper, as yet apparently unnamed, is due to appear soon. It is hoped that this paper will grow into the official organ of all the Citizens' Councils in the nation. The editor will be Mr. William J. Simmons, the Administrator of the State Council and the secretary of the Jackson Citizens' Council. It is planned to cost \$2 per year. Subscriptions should be sent to Mr. Simmons at room 203, Walthall Hotel, Jackson, Mississippi.

UNITED STATES DAY OBSERVANCES READIED

From coast to coast, real Americans are preparing to make this next United States Day celebration the best yet. Coming on October 23, the day before the United Nations Day, United States Day is rapidly becoming the favorite patriotic holiday.

Mr. W. L. Foster, Chairman of the United States Day Committee, urges all patriots to write their congressman, governor and mayor to celebrate October 23. Car stickers and pamphlets are available from the offices of the Committee, in Tulsa, Oklahoma. Write to 103 Boulder Building.

PATRIOT'S RESORT

Oak Harbor, the beautiful Florida sailing resort run by Lt. Col. John L. Hitchings, is fast becoming a mecca for vacation-minded patriots. Many Americans already are familiar with Col. Hitchings' Convention-by-Mail, which recently showed that

Senator Knowland is the favorite candidate for Constitutionalists, followed by Gov. Bracken Lee and General MacArthur. Besides being an ideal place for a vacation, Oak Harbor is a meeting place for rightwingers where discussions about Americanism are as much a part of the daily routine as is recreation. Oak Harbor is in Southport, Florida.

LUCILLE MILLER TELLS OF HORROR: PLIGHT OF EZRA POUND

Mrs. Lucille Miller, the fighting Vermont lady patriot and polemicist who had the gall to complain about Washington Reds and totalitarian and unconstitutional conscription laws, whereupon her home was invaded by an arm of the American Gestapo, she was gassed into unconsciousness, hustled off to an insane asylum five hundred miles away and threatened with physical mutilation by government inquisitors like federal Judge Ernest Gibson, is back in circulation after her ordeal. None the worse for wear, but angrier than ever at the treatment she received, she has issued a thought-provoking bulletin calling for abolishment of sections 4244 and 4246 of the U. S. Code. Under these laws the government has assumed authority to usurp the Bill of Rights by simply accusing a political opponent of being "insane" in a closed hearing and then locking them up forever, or cutting and destroying their brain. Concerning Ezra Pound, Mrs. Miller says:

Ezra Pound, one of the current batch of political prisoners, has been in St. Elizabeth's for ten years with every prospect of staying on unless rescued. He is there because he made sassy remarks about the geniuses who bestowed upon us the New Deal and an endless series of foreign wars to make the world safe for Soviet Democracy. Before you could say "Felix Frankfurter" Ezra Pound was whisked off to St. E., charged with some kind of vague sedition. Nobody knows any more what the original charges were, if indeed anybody ever knew.

Howard Hall, called the Hell Hole, is St. Elizabeth's toughest maximum security stronghold, bristling with obstructive devices and girt about by a 30 ft. wall to contain the most desperate and violent of insane criminals. The roars, shrieks, and curses of the fiends bottled up in the Hell Hole float over the whole City of the Damned, to fetch answering screams and obscene curses from far away WR8, the most violent female ward. Now Ezra Pound has been a poet and a scholar all his life and even his worst enemies would never call him violent, but when they got him within the cruel walls of St. Elizabeth's they kept him in the Hell Hole for a WHOLE YEAR, just to let him know they were not fooling. They meant to break him for keeps right then and there but Ezra Pound had more

FUNDAMENTALISTS CONVENE

The American Council of Christian Churches will hold its fourteenth annual convention in Grand Rapids over November 2-4. The theme of the Convention will be "God's Word for Perilous Times."

Hosts to the convention will be the Michigan Association of Regular Baptist Churches. Convention headquarters will be in the Pantlind Hotel. All afternoon and evening sessions will be held in Wealthy Street Baptist Church and morning business sessions will be in the hotel.

The address of the ACC is 15 Park Row, New York 38, N. Y.

... WE THE PEOPLE

crucial time which would show if the American rightwing would be able to bury their minor differences in order to agree on the basic and vitally-important things. At many times, it seemed as if the differences were too hotly-contested to ever be resolved in general accord. However, thanks to the inherent intelligence and self-control of practically all in attendance (not to mention the highly commendable feats of leadership and impartiality displayed by Mr. Joachim and Mr. Everingham), the two Resolutions -- with minor alterations -- were adopted.

Fifteen directors were elected to head We, The People. They are: Dr. Ernest E. Anthony, Jr., Ft. Worth; Mr. Robert B. Dresser, Providence; Mr. E. Gordon Fox, Chicago; Capt. Eugene R. Guild, Glenwood Springs, Colo.; Mr. Merwin K. Hart, New York City; Mr. B. M. Miller, Arlington, Va.; Mr. William R. Schneider, St. Louis; Mr. Willis E. Stone, Los Angeles; Mr. Walter J. Brand, Sheboygan; Mrs. Mary D. Cain, Summit, Mississippi; Mr. Harry Everingham, Chicago; Mr. Jerome Joachim, Berwyn, Ill.; Mrs. Louis L. Minor, Memphis; Dr. Elmer V. McCarthy, Chicago and Mr. Dan Smoot, Dallas. The first eight were elected to coordinate the activities of the six states in each of their respective areas and the last seven were elected as directors at large.

Officers will be elected by the Board after committees have prepared the by-laws and other organization details, though Harry Everingham is serving as Executive Director in the meantime.

The basic idea is to form a "balance of power" in American politics. In order to do this, the plan of action calls for organization down to the precinct level.

Now, all patriots at last have a Platform and plan of action which have literally been hammered out on the anvil of public discussion and majority rule and the coming months may witness the beginning of a national revival of Americanism.

Address of We, The People is 35 E. Wacker Dr., Chicago 1, Ill. Copies of the Platform and Action resolutions are available.

fortitude than they thought a poet would have so after a year they gave up and put him in a better building.

Observe the contrast between the treatment dealt out to Ezra Pound who was accused of being too friendly to the Italians and the treatment accorded to Alger Hiss and Owen Lattimore, both publicly accused of sympathy with Communist Governments. Ezra Pound has never had a trial or hearing or any chance to explain or defend his views, whatever these may be. He was rushed to the grim fastness of St. Elizabeth's in secret. Lattimore on the other hand had many hearings before Senate Committees, all of which were covered fully and in a friendly manner by the press. At the conclusion of one series of hearings, the late Sen. Pat McCarran described Owen Lattimore as "a conscious and articulate tool of Soviet policy". If the lies told by Lattimore cannot be called perjury they certainly look like "delusions", yet imagine the uproar if somebody had ever suggested that such a fancy liar as Lattimore might possibly be a trifle unwell mentally. Judge Youngdahl, so far from asking Lattimore if he was feeling all right, dismissed the charges of Communist sympathy as too "vague" and Lattimore has had no discomfort beyond the anguish he says he felt when people doubted his perfect righteousness. For this the whole U. S. Government will never get over apologizing.

Alger Hiss stole Government documents by the acre and gave them to other Communists who said they needed them for something or other. For this lovable weakness Hiss served 3-1/3 years in prison, but Ezra Pound has put ten years in St. Elizabeth's which is worse than any prison, and for what? Hiss tried to kiss off his early red affiliations by pleading that he was "confused". Did anybody ever hint that Hiss should have psychiatric aid to unconfuse him? On the contrary, the psychiatrists were turned loose on everybody who dared to question the perfect righteousness of Alger Hiss.

Now what makes the difference in disposing of these political cases? Why do some get every courtesy while others get a quick trip to St. E.? Read this again and then you will know who runs the New Bastille and for whose benefit. Will we have to storm it to get Ezra Pound and the other political prisoners out?

A SPECIAL FEATURE IN THE

Heavy losses are the reason for this decision, RIGHT is informed. The FEE, being tax-exempt, could not subsidize "The Freeman," and so planned to sell it to William Buckley's new "National Review" for one dollar. This deal, however, was turned down by FEE's Board of Directors at the last moment. It has now been decided to retain the Freeman name and issue the present publication called "Ideas on Liberty" under the name of "The Freeman," for free.

Frank Chodorov, Editor, is retiring to his New Jersey home.

Readers of "The Freeman" will be informed of the new situation, soon.

This development leaves the Rightwing magazine field still confined to three: "American Mercury," National Republic" and "National Review."

ANOTHER RIGHT EXCLUSIVE: Information RIGHT has gathered from different sources indicate some very interesting developments in Dixieland. The Federation for Constitutional Government is apparently finding itself a victim of some very slick, practiced maneuvering!

On the one hand, the Lords of the Democratic Party and the "free" press have issued a news blackout order on the Federation.

On the other hand, however, they are doing all within their power to throw roadblocks into the path of the Federation--feeling that unless this threat to the continued red and liberal domination of their kept Party is immediately exterminated, it will soon be too late to do anything at all!

The high stakes in the behind-the-scenes battle now going on may lead to some early, important developments. One effect already: the Federation's organization plans are being thrown behind schedule--and this in spite of terrific grass-roots support!

Incidentally, did you note the unexcusable faux-pas in the November 25 "U.S. News & World Report?" On p. 56, this usually accurate magazine reported: "There is no indication of such Southern opposition as met him (Adlai) in 1952." Wake up, U.S. News!

OPEN LETTER TO PRESIDENT EISENHOWER

Dear Mr. President:

Of late, facts have been coming to the attention of the American people which are so damaging to you, personally, and even to the honor of the American Army, which you commanded, that RIGHT hopes that you will do us the honor of supplying an answer to these vexing questions.

The implication of the below is so utterly fantastic that we are tempted to ignore the whole thing. Yet, we cannot. The facts, unfortunately, exist, and the people must be supplied answers to these disturbing facts if they are to not draw their own ghastly conclusions.

First of all, there are some very minor questions bothering RIGHT--and millions of patriotic Americans. Then, there are some very big questions. More of that, later.

RIGHT would like to know if the rumors about your early career are true: were you sent home from the Philippines by General MacArthur because of your incompetence? Is it true that you are, even today, uneasy in the great man's presence, and that this is the real reason you have refused to draw on his vast store of wisdom? Following your return to America, is it true that you visited the "elder statesman," Bernard Baruch, and then your phenomenal rise to Supreme Commander of all Allied forces began? (You were jumped over the heads of more than 250 out-ranking officers, remember?) Did your visit to Mr. Baruch have anything to do with this? If so, what was the agreement between you and Mr. Baruch?

Is it true that you and you alone are responsible for the surrender of Berlin to the Russians? Did you cut off General Patton's gasoline, so that he was unable to take the Balkans, as he was in the process of doing? Did you and Harry Dexter White--who was then known to be a Communist spy--hatch the Morgenthau Plan, in your London headquarters? What part did you play in the cover-up of the horrible Katyn Forest massacre, and why? Were you responsible for turning over to the Russians some 70,000 highly-trained German scientists, while we received only a few hundred? And are those the men responsible for building Russia to a point of aerial and atomic superiority to us?

How about the Austrian State Treaty? How does this in any way benefit America and the West? Is it not another sellout to Russia? Lastly, why did you appoint the infamous Lyman Lemnitzer--who is either an utter incompetent or a traitor--to try and fill MacArthur's shoes?

RIGHT would appreciate the answers to the above questions. However, all these matters are relatively unimportant! The truly urgent question that you must answer is this:

Mr. President, are you responsible for the murder of some two to five million anti-Communist Russians, Poles, Balts and Balkanese?

As you know, the Yalta Agreement has been justly condemned as a sellout. But as bad as it was, it had no provision in it for the forcible "repatriation" of millions who had fled into Europe to escape the bloody clutches of Godless Communism. Stalin, of course, had to have these millions back, else other millions of his subjects would get ideas of their own about freedom.

Mr. President, according to mounting documentary evidence, it was you, yourself, who sent thousands of these hap-
and death and torture!

The record also indicates that too much for your war-hardened offi-asked the Pentagon to hand down a de-force was to be used in this bloody interesting to note that your officers, ly under your own specific orders--had months!

this butchery finally became cers, and that finally you cision as to whether or not business. It is extremely Mr. President acting direct- been employing force for

After this matter was reffered to the Pentagon, Mr. President, the unbeliev-able happened. Three months went by; it began to look as if the millions still in American hands would be saved. AND THEN PRESIDENT TRUMAN APPOINTED YOU CHIEF OF STAFF--TO SUCCEED GENERAL MARSHALL--on November 19, 1945.

Mr. President, the record from here on speaks for itself: ON DECEMBER 20, 1945,
THIRTY-ONE DAYS AFTER YOUR APPOINTMENT, THE JOINT CHIEFS OF STAFF ORDERED THE ARMY
TO USE FORCE TO REPATRIATE THE REMAINING TWO TO FIVE MILLION ANTI-COMMUNISTS!

Mr. President, this Order is the foulest in American history. It has stained black the Army of Washington, and countless heroes who battled in the cause of liberty. It makes liars and hypocrites out of American statesmen. But it is all in the record. It initiated what history will record as probably the foulest war crime ever perpetrated by a "Christian" nation.

Literally tens or hundreds of thousands of these pitiful people committed suicide, rather than return to Red torture. Our own American Army used bayonets, bullets, dope and lies to induce these millions to return to their death. The ghastly story is almost beyond belief. Your own Pentagon named it "Operation Keelhaul!"

Mr. President, here are our questions: Why is the Army still suppressing (illegally) all official documents dealing with this horrible crime? Who was the man responsible for pushing through the order to use force to "repatriate" these innocent millions? Mr. President, was it you? If so, why?

Finally, Mr. President, is it true that "the Communists are going to support Ike for the Presidency in 1956," according to the Socialist "Weekly People" for October 22, 1955? If so, we ask, again, why?

ANOTHER SCOOP! EXCLUSIVE TO RIGHT: On the highest authority, RIGHT learns that a very important meeting was held in Chicago on January 27. Present were the heads or representatives of many patriotic organizations, including, WE, THE PEOPLE, FOR AMERICA, NATIONAL ECONOMIC COUNCIL, LIBERTY & PROPERTY, CONGRESS OF FREEDOM and certain Southern groups.

The purpose of this meeting, RIGHT is informed, was to determine means through which all patriots can take patriotic ACTION together. Elected chairman by those who attended was Harry Everingham, energetic executive for WE, THE PEOPLE. These things were decided: (1) That the slogan for '56 shall be, Country Before Party (suggested by Col. John Hitchings, of Florida), (2) That a "Poll of Patriots" shall be taken throughout America to get the names of all real Americans, (3) That "patriotic action" shall begin right inside each patriot's own precinct, (4) That all candidates will be screened by asking them their views on: Taxing and spending, proper sphere of federal activity within the states and with private enterprise, attitude towards the Bricker Amendment, (5) A precinct workers training manual will be prepared for the use of workers.

It appears that nationwide cooperation between all good Americans is fast becoming a reality. Main question: is there time enough--in the North--to be effective in the '56 election?

CORRECTION, PLEASE: In last month's issue, RIGHT reported that Chancellor Adenauer signed the Austrian State Treaty. Technically, this is incorrect, as the document was only signed by the Big Four. Adenauer was forced to "accept", or "consent to" the terms of the Treaty, and did not actually sign it.

ADDITIONAL ACTIVITY with a direct view towards the coming election is taking place the length and breadth of the land. The ABRAHAM LINCOLN REPUBLICAN CLUB announces that the annual Lincoln Day celebration will be held, this year, at the Morrison Hotel, in Chicago, on February 11. Announced speakers include Senators Malone and Jenner. Reservations, reports Capt. Bundy, the President, cost \$10. Send to 82 W. Washington St., Chicago 2. . . . WE, THE PEOPLE has members in 48 states and over 800 towns. 111 N. Wabash, Chicago 2. . . . The CONSTITUTION PARTY has placed Sen. Jenner on the ballot in Colorado. Activity in other states is contemplated. . . . Another "third" Party in the making, reports Lucille Miller. PEOPLE FOR McCARTHY 'twil be the name. "This is to be a 'balance of power' Party," she writes, and is full of ideas on the subject. If you write, ask for her tracts on "Barrotry and Garrotry." Terrific. Bethel, Vt. . . . "A survey of every county within one hundred miles of Augusta indicates now that Talmadge will carry every one in this area with the possible exception of three," reports the militant "Augusta Courier" about the forthcoming George-Talmadge battle shaping up in Georgia. George is being backed by the liberal-internationalist element in the state. . . . Ray Tucker, syndicated columnist, predicts that interposition will be adopted by eleven Southern states.

Police are desperately needed to try to cope with a rising tide of lawlessness. The "Chicago Daily News" for January 9 ran a frank editorial about the dangerous situation. "Officials say the South side situation is intensified by the number of narcotics addicts and a high tide of new immigrants from the South, some of whom have primitive standards of manners and morals," said the News, which commended a move to institute a vigilante system, of all things, to try and protect homes and property at night. Strange that these "new immigrants" weren't "lawless" while they lived in the South. The NAACP is reportedly at its wit's end about the matter.

. . . RUMBLINGS FROM THE RADICAL RIGHT: RIGHT understands that a national convention of radical Rightwingers is to be called in Chicago about July 4 under joint sponsorship of West Hooker's NATIONALIST PARTY and the REALPOLITICAL INSTITUTE. (224 E. 38th St., New York 16 and Box 1785, Chicago 90, respectively.) . . . Joe Beauharnais, Box 531, Chicago 90, is calling a nationalist convention (also in Chicago) for March 23-25. Tender Victory, a new novel by Taylor Caldwell. This one may hit the best-seller list, though it is being given the well-known "treatment" by anti-anti-Communist publications like the N. Y. "Times." The "Chicago Tribune," however, calls it, "magnificent." A powerfully-written anti-Communist work, this should be in every patriot's home. \$3.95. 442 pps. McGraw-Hill.

American Race Theorists, a devastating, scholarly book by Byram Campbell, this meets the arguments of the equalitarians on their own ground and makes hash out of them. Invaluable for scholars and patriots, this book supplies fascinating, accurate intellectual groundwork to lay at rest the dangerous marxist fallacy of equality. 145 pps. \$2.50 from Pacific Book Co., 260 Kearny St., San Francisco 8.

LACK OF SPACE, this month, prevents the inclusion of the editorial. The presentation of the special feature, RUSSIA, STRONG OR WEAK? is being postponed for the gathering of additional facts. Louis Dinnocenzo, President of the SOUTH DEERING IMPROVEMENT ASS'N., the organization leading the fight against the NAACP in Chicago's Trumbull Park, writes RIGHT that "things are looking better every day. The police detail is cut to 120 per day (from over 300) and the (troublemaking) families are moving out. . . . After 30 months, they have learned that our people will not take brotherhood by force." Rightwingers owe thanks to Dinnocenzo and his people for their tremendous, single-handed battle against all that the NAACP could throw at them. Box 16, Chicago 17 for copy of SOUTH DEERING BULLETIN. . . . Perhaps another reason for the NAACP's defeat is the critical state of Chicago's law enforcement in the South side.

THE LORDS OF LABOR: The marriage of the AF of L and the CIO is seen as one of the gravest threats to the Rightwing in a long time. The extreme left California Committee for Fair Employment Practices calls the merger, "The most important Civil Rights development of December." . . . The "Apartment Bulletin," published in San Francisco, reports that a socialized housing bill is being drafted by Big Labor "which makes the 1949 bill pale by comparison." . . . Who will win the '56 election? No one but Walter Reuther, writes Joe Kamp in his latest booklet, About the Man Who Will Win in '56. Order for 25¢ from 342 Madison Ave., New York 17.

A GREAT AMERICAN, Tom Gaskins, the originator of cypress knee art objects, has proven what guts, a dream and free capitalism can accomplish. Gaskins, an outspoken patriot at the same time that he is a successful entrepreneur, has shown himself to be one of the few really courageous businessmen in America. Having no truck with bureaucratic red tape, Social "Security" and other forms of totalitarianism, Gaskins refuses to expand his business--in spite of increasing demand for his products. Expanding would mean hiring extra workers, writes Gaskins, which, in turn, would mean too many headaches with federal rules and regulations, and he has had more than his share, already. (The federals have to periodically confiscate his bank account to get their SS "contributions.") Gaskins personifies the kind of independence and courage which built America. Write and ask him for literature on the industry he founded. His museum is in Palmdale, Florida, on Route 27, in case you're driving. . . . Gov. J. Bracken Lee, of Utah, another rebel against the heavy hand of the militarist-internationalist Superstate, is causing Ike officials some concern by his flat refusal to pay his income tax in full. In case his test case fails, Lee has deposited enough money to cover his taxes in a local bank. Lee is protesting against foreign giveaway projects. . . . You know, he might make a good President!

FOREIGN AID IS NOT THE ONLY BOONDOGGLE, according to Willis Stone, dynamic President of the AMERICAN PROGRESS FOUNDATION (6413 Franklin Ave., Los Angeles 28). Stone once thought that there were only 88 federal corporations and now reveals that his office has identified 707 federal corporate activities! THE ISSUE

ON THE VIRTUE OF GENEROSITY

"Some rise by sin and some by virtue fall."

--Shakespeare. Measure for Measure

Western Civilization has been blessed with statesmen whose generosity (Ugh!) has never been questioned. Let us inquire into the case of one J. F. Dulles, at present the Head Soda Jerk at the free lunch counter, Striped Pants Department, Washington.

Just the other day the world was privileged to witness the ponderous cerebations of this virtuous character.

Now this was quite an occasion by itself, as usually Jerk John whooshes by so fast that he hardly has time for even a gay fare-thee-well.

But this time he stayed around long enough to speak at the annual luncheon of the Associated (controlled) Press, and all present had the rare opportunity to ponder upon his profound gurglings with the respect they deserved.

Mister Dulles is of an odd breed, much like his worthy contemporaries, Frankie Roosevelt and Winnie Churchill. He has all the facts handy at his well-manicured fingertips but has yet, strangely enough, to make the right interpretation of them! It must be an occupational disease. Yet it is too bad, in a way, because it is because of Jerks like Emperor Franklin and Sir Winston Barleycorn and Perfesser John that the West continues to commit suicide. We, the people of the crumbling West, owe a great debt to the likes of Perfesser John.

Emperor Frankie and Sir Barleycorn demonstrated their selfless generosity in the last war, when their wise policies installed the Russian-mongol hordes in the heart of Europe and obliterated Germany, one of the few anti-communist forces the West has ever produced.

Not to be outdone, Laughing Boy Ike proved that his generosity was also unusual by making a gratis gift of Berlin, much of Germany and the Balkans to his buddies in the Kremlin. As a matter of fact you might say that Laughing Boy was sort of a star--a red star--donor

because his famous grin never left his honest face as he forcibly turned over some two to five million anti-Communist civilians and soldiers to the Russians, not to mention some 75,000 German scientists and technicians and the Uranium mines of Czechoslovakia. These civilians, by the way, were obviously mentally ill, as they refused to return willingly to the Communist paradise they had fled from. Consequently, Laughing Boy apparently felt it his duty to see that they were forcibly returned for therapy. It is reported that the therapy administered to them by the NKVD was amputation of the head at the neck, and that the rate of cure was 100%!

The Russians were so grateful for this foreign aid that they promptly bestowed on Laughing Boy their rare and jewel-bedecked Suvorov Medal, and even temporarily switched drinks to Martinis from their native Vodka at his urgent request, causing some skeptics to assert that Ike always expects favors in return for favors.

Laughing Boy's generosity was so unstinted that one might judge that it far outdid the better-known generosity of a certain Henry Dexter White, whose compassion for the underprivileged Russians led this idealist to give them American money plates so that they could print American taxpayer-backed bills whenever the spirit moved.

All in all, we might say, these statesmen have been so generous with the resources of the West that they have all but given away Western civilization. But never fear; we may rest assured that what little is left will not be left for long if Perfesser John has his way. Read on:

Currently, Perfesser John--with the avid help of Laughing Boy, we assume--is engaged in the task of completing the work so auspiciously begun by that much-maligned Atlantic Unionist, Benedict Arnold, whose own generosity, you may recall, once was also greatly appreciated in certain quarters overseas.

To get back to our story, after licking the whipped cream from his pinkies and flicking a crumb of cake from his well-turned French cuff, the Perfesser gave a broad, Ike-like grin and began his lecture at this luncheon. After explaining that the threat of Russia is growing less and less each day the inimitable Perfesser continued with irrefutable logic to point out that this lessening of tension obviously demands "greater emphasis

Perfesser John Foster Dulles practices Eisenhower grin; does good job, too!

2

on cooperation" between the NATO nations. Now translated into American this means that it is high time that the United States cope with this "lessening threat" by setting up an international authority which would give orders to American citizens without regard to American law. (If you find this clear logic hard to follow for God's sake don't let on or you will find yourself a candidate for therapy to cure your mental illness.)

We might point out that the federal courts, after 26 years of generous attention by Emperor Frankie, Give-'em-Hell Harry and Laughing Boy Ike, can be relied upon to see to it that Perfesser John's vision of American subservience to alien control is not a mere burst of boyish enthusiasm.

And then came the bombshell. The Perfesser, unquestionably out of wild chance alone, said something completely true, indicating that his writer must have slipped up. "The historic weakness of the West has been its disunity," read the great man. "Out of this disunity came wars which have taken the lifeblood of its finest youth and weakened its economies."

Now what conclusion are we to draw from this? Well, according to the Perfesser, only a reactionary bumpkin would infer that the way to strengthen the West is to strengthen the West. Of course not! Every well-perfumed liberal knows that the way to strengthen the West is to further weaken and disunite it: "More independence needs to be perfected." (What does that mean?) "More economic development needs to be planned and supported (by whom?) throughout the world. More sense of equality and human brotherhood needs to be developed." (Oh-oh! There are those words again!)

In case you have any doubts as to the Perfesser's

meaning, please refer to his speech a few days later to the 100% American secret society known as B'nai B'rith (Bad Breath), where he warmed to his task and said, "We should be able to help find relationships expressive of true brotherhood and recognition of the fact that other civilizations than our own have immense values. We perhaps have material and technical things to give. They also have things to give. And if we are wise enough to take what other civilizations have to offer the balance struck between us will not be one-sided."

It is as clear as daylight, of course! The way to save the West is to commit suicide! Let us give ourselves away forthwith. Let us give our treasure to the natives of the Congo and our blue-eyed daughters to the natives of Harlem! Let us give everything away in one grand, final orgy of "equality" and "brotherhood" and then depart this life forever! Be generous--that's the way to "maintain (the) solidarity of the West," as the Perfesser expresses it.

RIGHT respectfully suggests that the first thing we might give away under this promising new program is Perfesser John!

And the sooner, the better!

ADDENDUM: Traitors and irrational fools can never be made to see that The Issue is East versus West until it is much too late. The Issue is preservation, not integration. It is pride, not shame. It is courage, not cowardice. It is survival, not suicide.

The Issue is West versus East, not West into East.

Flash! A RIGHT SCOOP! EXCLUSIVE: Anne Smart, 7 Liberty St., Larkspur, Cal., who has earned the bitter hatred of progressive "educationists" for her exposure of pornographic books in her local high school which were placed there by subverters in order to destroy American youths, has been quietly ordered by the Postmaster General to immediately cease sending "obscene" material through the mails or face stern punishment! This "obscene" material consists of verbatim excerpts from the books themselves! (One of the worst of the books is by Richard Wright. More of him later.) Apparently, the book publishers are to be allowed to continue to send the books through the mails to the schools which order them. Note the typical communist tactic of applying a double standard: One standard for Anne Smart, who is anti-communist and a patriot; another standard for the well-heeled promoters of the communistic filth.

Flash! ANOTHER EXCLUSIVE: A federal court in Washington has just handed down a decision which, in effect, gives official sanction to Maj. George Racey Jordan's charge that traitors in Washington, during the war, shipped expensive mining equipment, confiscated from American citizens, to the Russians so that they could dig Uranium!

WPB Order L-208, issued October 8, 1942, requisitioned certain gold mining equipment giving as excuse the lie that it was vitally needed for strategic copper mining. This seizure of private property shut down 200 mines in California alone, and made many ghost towns. Instead of being used to mine copper, however,

the equipment was spirited off to Russia **3** where it was used to mine Uranium! After the war, upon learning how **3** they had been victimized, the gold mine owners sued the federals for damages, and they have just won their case. The decision will force the poor taxpayer to pay the mine operators between 200 and 300 million dollars--and all because of wartime treason!

PATRIOTIC PROFILES: Whereas the only bone of contention on the Left is "Stalinism" (they all agree on a form of marxism) the Right is rich-hued in its variety. Whether this variety strengthens or weakens the Rightwing is a point of controversy. But the personalities within the Right are as diverse as life itself, though they are, God love them, all 100% American. Take Robert LeFevre and Lawrence Dennis as examples. It would be hard to find two men whose economic thinking is as widely diverse, yet all in all their similarities outweigh divergences.

To start with (though this will shock **RIGHT's** readers) both of these men are bigamists! For besides each being married to a lovely and musically-talented woman these two men are married to two principles: LeFevre is married to the stern goddess of human liberty and Dennis is married to the demanding nymph of nationalism!

DENNIS

Here are two quotes which sum up LeFevre: "The Libertarian philosophy is the study of man's nature, his individuality, his gregariousness, his economic abilities, his political foibles. The Libertarian philosophy is the concept of unlimited freedom and limited government. It is opposed to all kinds of collectivism. It favors bedrock Americanism." "Government is evil to the extent that it uses compulsion and, like other evils, unnecessary."

Dennis' most famous quote also sums up his granite-like outlook best. Written in 1940 of the then-predicted success of Roosevelt's war mongering, he said "As soon as we enter the war I shall try to join up in any capacity in which I shall be found most useful. If I am found too old or incompetent for line duty . . . I shall be delighted to serve my country with its war propaganda. I am just as ready to lie as to kill for my country. Any ethic which does not put a man's country above all else is a stench in my nostrils."

LEFEVRE

Both men are brilliant writers; LeFevre being the editorialist for the Colorado Springs, Colo. Gazette-Telegraph and Dennis being the author of such prophetic books as The Dynamics of War and Revolution and publisher of The Appeal To Reason, Becket, Mass.

Both men are self-made and are therefore hardheaded realists. LeFevre, besides being a noted philosopher and prophet of Freedom is a natural-born leader and organizer and was primarily responsible for the success of the San Francisco CONGRESS OF FREEDOM which held in 1955, severely criticized the UN. Dennis managed to acquire a Harvard education, served in the AEF in 1917, worked for the State Department for seven years, resigned to join a Wall Street banking firm and retired in 1930 to write.

If consistency is a virtue, these men are saints. Take Dennis, for example. One of the superb martyrs at Roosevelt's faked and phoney "Mass Sedition Trial" of 1944 when the Roosevelt Communists persecuted 30 patriots for their anti-in-

terventionism, he is no more favorable **1** to overseas adventuring now than he was then. In a recent Appeal, he said, "The present function of American meddling all over the world is to build up and activate colored war unity against the whites and to expedite racial integration and assimilation in this country. Well, the Southern internationalist followers of Wilson are certainly getting what they asked for . . . and Ike is just the type to preside over it all. He does not understand what it is all about."

The differing outlook of the two men can be seen in this example: Both are utterly against the UN. But whereas LeFevre objects primarily to the restrictions on liberty that the UN bureaucracy would place on the individual, and the communistic slant of its activities, Dennis criticises the outfit for its general stupidity and unrealistic approach to history.

And there are two even more convincing ways to prove that these leaders are on the same side: The ADL has attempted to taint them both with the smear of "anti-Semitic," though, needless to add, neither have ever written or spoken against the Jews. Furthermore, neither LeFevre nor Dennis have ever been granted so much as a thin dime from the Ford, Rockefeller or Carnegie Foundations!

FROM HERE, THERE AND 'MOST EVERYWHERE: While the liberals continue their well-financed and well-reported bawling about the mythical "persecution" of numerous traitor scum their typical hypocrisy prevents them from bringing their vast resources to the aid of real martyrs who--at this very moment--are being railroaded into prison or worse by corrupt federal courts. Hero Lucille Miller (Bethel, Vt.) who, with her husband Manuel is fighting a single-handed battle for the Constitution and freedom, writes to **RIGHT**: "Our appeals were turned down. . . It's very flattering to be the victims of a news blackout but rather inconvenient too as it makes for much letter writing. . . We may be in prison by the time you get this but whatever happens we know we hurt the communists real bad so it will be worth it." . . In the May 2 issue, National Review carried a superior article "Why does the World Hate America?" Conclusion by author Ray Cartier: "One, Americans are white; two, they are rich; three, they are the richest of the white peoples--three indelible facts which insure them, no matter what they do, the unfavorable prejudice of a majority of the world's inhabitants." . . The extreme Leftwing Nation reviews Richard Wright's latest book, The Color Curtain. Wright, who is colored himself, is a veteran redfronter and author of books declared obscene by the Postoffice. Now he generously tells his "solution," which sounds as if it is the source of Secretary Dulles' ideas: "The West must abandon all assumptions of racial superiority (and) an economic levelling-up must be accepted voluntarily. The white Westerner will have to accept . . . a much, much lower standard of living for that is what the de-Occidentalization of present-day mankind will bring about." In other words, SUICIDE is the answer. And these idiots are the ones calling us "mentally ill!" Pass the aspirin, please. . . Incidentally, be sure and read The True Story of Red China in the May 18 U.S. News & World Report. By an old China hand, it says things like "What the (West) faces is a monstrous bloc of 900 million people. . . What Napoleon dreamed of and Kaiser Wilhelm warned against--the yellow masses controlled by a predatory power--has at last come true!" This sounds like a **RIGHT** editorial! . . See April Southern Conservative (Flatiron Bldg., Ft. Worth). Quoting from an Eastland Report which, in

turn, quotes Fred Smith, onetime Assistant to Secretary Morgenthau, this astounding revelation comes to light: **5** "On August 7, 1944, in a tent in southern England, the Morgenthau Plan was born. Actually it was General Dwight D. Eisenhower who launched the project!" And to think that we've all blamed it on Harry Dexter White! . . . Austin Howard, 430 Hawthorne St., Glendale, Calif., has a brochure out selling for \$2 per 100 giving many little-known facts about the person in the White House. . . In the May Faith and Freedom (1521 Wilshire Blvd., Los Angeles 17) Gerald Heard packs an atom bomb in the middle of a terrific article. Correctly states Heard: "Certainly Genetics, the science of inheritance, has proved the inequalities of men. . . Whether (this) is undemocratic or no it is certainly unsocialistic. . . Men are unequal." Such plain talk, to date, has been too much for many Rightwingers who prefer to steer clear of the subject entirely. . . HOW ABOUT THE NEW BRICKER AMENDMENT? many Rightwingers are asking. Is it good? Opinion is divided but the VIGILANT WOMEN FOR THE BRICKER AMENDMENT (Route 4, Oshkosh, Wisc.) to date strong supporters, have come out opposed to the new version, claiming that it is insufficient. Not all Americanists agree with this view. Write Frank Holman, Hoge Bldg., Seattle, Wash., for arguments in favor of it. . . Congressman H.R. Gross (R, Ia) inserted into the March 13 Record an article in the VETERANS OF FOREIGN WARS Newsletter which criticizes the Internal Revenue Service for their biased stand in refusing to grant tax-exemption to FOR AMERICA while such Leftwing outfits as the Atlantic Union Committee, Urban League, AJC, AAUN, NCC, NEA, American Friends Service Committee, Ford Foundation, ad nauseum, have the privilege. . . Talmadge's recent statement of support for Stevenson hit many of his backers like a bombshell. While many entrenched Southern politicians fiddle, however, the South-hating radicals are burning with plans to scuttle the Dixiecrats and it begins to look as if the South will be unceremoniously thrown out regardless. Reuther makes no bones about it: "You cannot have Mr. Eastland and us at the same time;" and Trotskyite weeklies like Labor Action and Weekly People demand the isolation of Dixie.

BOOKS THAT ARE RIGHT: Americanist religious leaders are striking back with vigor at the unChristian and satanic doctrine of integration, so at variance with God's Word as revealed in the Holy Bible. Deprived of the huge funds which would be provided for them as a matter of course were they to advocate the communist principle of forcible integration, they are turning to cheap pamphlets and booklets to spread the truth.

IN NATIONAL CONVENTION ASSEMBLED, the CONSTITUTION PARTY on August 28 drafted Virginia's T. Coleman Andrews and California's Thomas H. Werdel to run on their ticket in the coming Presidential contest. The CONSTITUTION PARTY is now organized in fifteen states and was represented in the convention by ten. Sixty-five accredited delegates and approximately 300 others attended.

Next for this rapidly-growing group is a Memphis meeting, to be held on September 15 with representatives of other states' rights groups. Box 8181, San Antonio 12, for information.

ALSO TO MEET IN SEPTEMBER is WE, THE PEOPLE, which expects a turnout of some 1000 registrants at the Conrad Hilton Hotel, in Chicago, over the 15th and 16th. Not a political party, WTP nevertheless has plans for ACTION and has made giant strides forward since its first national meeting, last year. Persons wishing to attend should write 111 N. Wabash Ave., Chicago 2. This CONSTITUTION DAY CONVENTION is being co-sponsored by the AMERICAN REAL PROPERTY FEDERATION, CAMPAIGN FOR THE 48 STATES and CONGRESS OF FREEDOM, besides WTP.

GOV. J. BRACKEN LEE VISITS THE CONSERVATIVE REPUBLICAN HEAD-QUARTERS IN SAN FRANCISCO. UNDER TWO HUGE PICTURES OF LINCOLN AND TAFT, HE EXPLAINS HIS STAND AGAINST THE INCOME TAX.

EXCLUSIVE: Direct from persons closely associated with the White House come the following three items. **RIGHT** cannot vouch for them, only reports them:

(1) President Eisenhower fully expected to withdraw from the nomination until only a few days before his flight to San Francisco. He changed his mind because strong rumor had "leaked."

(2) Ike planned to unveil a world-wide WPA plan in his acceptance speech but was advised not to at the last moment because of indications of grassroots Republican revolt against such socialistic doings. The plan, however, which was dreamed up by brother Miltie,

has been put in mothballs. It calls **2** for an "End Poverty on Earth" crusade, in which the federal government would supply one-third the cash, another third to be provided by American corporations, with their investment guaranteed by the government, and the final third to be provided by other nations.

(3) Ike plans to step out of the race before November.

A SPECIAL RIGHT REPORT: If you happened to be listening at the right time the other night you may have caught on your radio a rather unexpected statement. An Archbishop C. C. Addison was quoted as saying that the NAACP is a fraud; that it was dominated by White men and that its policies were communist-inspired.

It is not the unquestioned truth of this statement that makes it so interesting but rather the fact that it was allowed on the radio. If your ears picked up the significant fact that Archbishop Addison is a Negro, this may have explained the matter to you.

The Negro nationalist movement has a long, fascinating history; considerably longer than the NAACP-communist movement for integration. The alert student of this suppressed chapter of the American story will come to the probable conclusion that the plot against civilization is much worse than he had imagined because the fact will emerge that the drive to mongrelization promoted by the NAACP and related groups is not only contrary to the desires of the White man but also to the desires of the Black man!

Absolute proof of this extreme-sounding statement is seen by comparing the support that the NAACP has been able to drum up among Negroes, with the following of Marcus Garvey, a Jamaica Black who—only three decades ago—inspired perhaps six million of his co-racialists to support his back-to-Africa crusade. The membership of the NAACP is only about 300,000 persons, most of whom are either white or very light-skinned! For more information on Garvey and his abortive movement, see Black Moses, by E. D. Cronin. (Univ. of Wisc. Press, 1955) Written by a liberal and therefore inaccurate in many instances, the book is nevertheless valuable for its revelation of a whole new and practically virgin field of Rightwing activity.

The important thing that the history of Negro nationalism to date has to teach the Rightwing is that its failure is the result of the failure of the American White man to support it, and certainly not the result of the failure of the Negro to respond to pan-Africa emotionalism.

It is without doubt true that the supremacy of the NAACP and its policies is solely due to its promotion by White subversives, who are still in complete control of the movement. Had any Negro nationalist group ever received a fraction of the support that the NAACP has, there would be no race problem in America today.

Only one White man has consistently supported these worthy Negroes in their fruitless quest for independence and self-determination, and that unsung hero is Col. Earnest Sevier Cox, of Richmond, Virginia. (924 E. Main Street) Cox has stuck by these groups through thick and thin. A truly original thinker and author in his own right, here is a man who will go down in history as

one of America's greats.

Of late, more Rightists are ex- **3** pressing interest in Negro nationalism, seeing in it a solution to many problems. One group, the JOINT COUNCIL FOR REPATRIATION, (Box 67, Sausalito, Calif.) even sees the cure for the growing agricultural and industrial surplusses in the proposed repatriation program and suggests that each Liberian pioneer be given \$1000 worth of farm and factory products each year for his lifetime. This, they argue, would be much cheaper than foreign aid and it would solve economic and social problems instead of create them. In addition, it would offer a great incentive to families which otherwise might not be attracted.

Here are the names and addresses of the five leading nationalist groups:

- (1) AFRICAN UNIVERSAL CHURCH, 3802 3rd Ave., New York 57. President-General, Archbishop C. C. Addison.
- (2) CHURCH OF THE ETHIOPIAN WORLD FEDERATION, Inc., 3323 S. State St., Chicago. Winston G. Evans, Executive Secretary.
- (3) PEACE MOVEMENT OF ETHIOPIA, 4451 S. State St., Chicago. President-General, Mrs. M. M. L. Gordon.
- (4) UNIVERSAL AFRICAN NATIONALIST MOVEMENT, Inc., 102 W. 116th St., New York 26. Benjamin Gibbons, President.
- (5) UNIVERSAL NEGRO IMPROVEMENT ASSOCIATION, Box 160, Monrovia, Liberia. James R. Stewart, President-General. (Although headquartered in Africa, this group is organized in the U.S.A., too.)

Each of the above have their own history and goals. But their interests are common in that they fight for a chance for the Negro to stand on his own two feet. There are individuals, too. For instance, Samuel A. Davis, of 2430 S. State St., Chicago, is a prolific writer on repatriation from the religious viewpoint. Davis declares that his people are descended from the lost tribes of Israel and finds biblical passages to show a great and independent future in store for the Negro race. Then there is J. W. Jones, the owner-publisher of the New Albany, Mississippi Community Citizen, who heads an anti-NAACP group called the NEGRO AMERICANS, and who minces no words fighting NAACP subversion.

Planned for November by the UNIVERSAL AFRICAN NATIONALIST MOVEMENT is a "Big Meeting" in Washington. The purpose of this demonstration will be to press for the passage of S 276, a bill introduced by Senator William Langer at the behest of many Negro nationalist groups. This Bill is designed to aid persons desirous of emigrating to Liberia. The plans for this giant demonstration seem well-thought out and are certainly worthwhile. The NAACP, incidentally, has formally announced its opposition to this Bill, proving that it has only one interest: troublemaking and only one aim: mongrelization.

JORDAN WHIPS NATIONAL BROADCASTING CO.

Makes Multi-Million Dollar Corporation Eat Their Words

Major George Racey Jordan, two-fisted patriot who never lets overwhelming odds stop him, has just won a smashing legal victory over the National Broadcasting Co.

WAR SCARE HURTS PROTEST VOTE

The protest national protest vote against both major Party Presidential contestants ran to at least 300,000 and perhaps to 400,00 or more. In only South Carolina and Tennessee did the third Party ticket hold the balance of power.

Full information will be available in December; until then, here is a conservative and incomplete tally of eight States with a protest ticket on the ballot: Ala., 18,000; Ark., 43,300; La., 41,000; Miss., 38,000; S.C., 87,400; Tenn., 20,000; Tex., 12,000; Va., 41,500. Add to this six other States with a ticket on the ballot plus many thousands of write-ins in the remaining 30 States.

Obstacles placed in the path of Constitutionalists were many and varied. The press was generally hostile and usually ignored the movement altogether. In some localities, officials tried intimidation or trickery to keep patriots from voting such as in New York.

Here are three Rightwing comments: Humphrey B. Neill says that "the majority vote in America is a liberal, left-veering massive vote." Harry T. Everingham, of WE, THE PEOPLE, said, "Our greatest need is broad education. Even many who are instinctively conservative need to be further enlightened and activated before they will need any call outside their old Party." Philip Lee Eubank, CONSTITUTION PARTY National Chairman points out that in Texas, where the Party is strongest, the Presidential ticket received less than one-third the votes that State and local

Back in 1952, announcer Irving R. Levine (who is now reporting from Moscow) told the network's listeners that Congressional hearings had "discredited" Jordan's documented tales of Communist subversion in Washington. Jordan promptly sued Levine, NBC, Morgan Beatty and Alka-Seltzer for \$250,000, since Levine's statement was a falsehood.

In spite of the advice of apprehensive friends, who pointed out that NBC's huge financial resources and powerful allies would enable it to prevent a fair decision from being handed down, Jordan stuck to his guns, believing that the truth would eventually win. And it did.

Now, David Sarnoff, NBC head man, has not only been forced to pay off a fat settlement to Jordan but offered him \$5000 extra if he (Jordan) would please save NBC the embarrassment of a public retraction. Jordan, feeling that the extra \$5000 of NBC's money would enable him to spend that much more on patriotic work, accepted the offer.

A little background might not be amiss. Irving R. Levine is well-qualified to report on Red Russia as he is suspected to be the same Irving Levine who was an elector for the Communist Party in Pennsylvania in 1940. As for Sarnoff, he is well-known as a censor of pro-American viewpoints over his network.

candidates received! This strange fact emphasizes the unusual nature of the election.

THE RIGHT LINE (An Editorial) DON'T MISUNDERSTAND IKE

Those Americans who are capable of remembering events before their last payday and who sometimes think beyond their next must have had a feeling of "this is where I came in" as they listened to President Eisenhower on October 31 as he promised to keep them out of war.

It is not really strange why an American President talks like an isolationist when he is trying to get re-elected but acts like an internationalist the rest of the time. No, this is not strange at all to anyone who has even a partial understanding of the sub-rosa forces which shape American destiny.

It is traditional for a President to promise "again and again and again" to keep American boys from being slaughtered fighting in wars which have no concern whatsoever for American vital interests. This is only good Machiavellian politics, and it elected Woodrow Wilson in 1916, Franklin Roosevelt in 1940 and Dwight Eisenhower in 1956.

It is also traditional for a President, when he is safely re-elected, to set about to involve us in war at his earliest convenience. Not necessarily because he is a devil (though one who is familiar with the facts of Roosevelt's and Eisenhower's character might dispute this) but because he is forced to do so by secret commitments made previously to powerful interests who, in turn, gave their political or financial support to the aspiring candidate.

To be more specific, Wilson was the tool of the British and the Zionists and the international bankers, all three of which were dedicated to the proposition that there was no room in the world for both German and English imperialism.

Roosevelt bowed to the same three that Wilson did, with the addition of the international Communists, who probably acquired as much influence as the other three together. Again, all of these subversive forces were agreed that Germany must fail and that America should do

the job.

And now Eisenhower finds that not only must he attempt to placate the above-named four power factors but a completely new one has sprung up: namely, the vested interests in the Middle East oil fields.

This latter force is the strongest of all in the Eisenhower Administration, let no one be deceived about that. It is here where we can find the key to the Eisenhower foreign policy.

Many Rightwingers have made the serious error of attributing to Ike credit for a *pro-American* anti-Zionist foreign policy whereas actually he has been following a *pro-Standard Oil* anti-Zionist policy.

Dwight Eisenhower has no more concern for the national interests of the United States now than he had in the past, or than Woodrow Wilson, Franklin Roosevelt or any other internationalist has had for America. But because the investments of the House of Rockefeller (and others) in the black gold of the Middle East must be protected at all costs, he has been forced to slap the wrists of the Israelites once or twice.

The Arabs must thank Allah every night for Standard Oil. Were it not for them and their oil fields, Eisenhower would long since have sent American boys to their land to bomb and butcher them, and get bombed and butchered in return. After all, aren't the Republicans committed to the "preservation" of Israel?

But what is good for the Arabs or Standard Oil or Israel or the English or the Suez Canal is not necessarily good for the United States.

Let not the Rightwing ascribe to Ike any motives of placing American national interests first and foremost. Dedicated internationalist that he is, he would be the first to deny such a dastardly charge, now that he is re-elected.

TO KEEP OUT OF WAR, DON'T GO IN

The expenditure of billions of dollars on internationalist propaganda has done its subversive work well. Indeed, there are relatively few Americans left who are able to think at all

rationally about such easy-to-understand things as war and peace and foreign policy.

Let us have some definitions. A nation is at war when it fights with arms against another nation or group of nations. It is at peace when there is no such fighting. Foreign policy is the will of the nation expressed in its relationships and activities with other nations. There is one goal of foreign policy and one alone: that is, the best interests and survival of the nation. There is only one object and purpose of war: Victory. If victory cannot be had, or if it seems improbable, it is stupid and irresponsible to go to war.

There is not and cannot be any such thing as "enforcing peace," or "fighting for peace," or "policing trouble spots" to protect the status quo or "avoiding great wars by stopping small ones by the force of arms" in the name of "peace." It is not difficult for the average person to realize that this is, in itself, war.

A nation can never keep out of war by going to war. History shows that the way to get into a big war is to first get into a small one; Anthony Eden, Dwight Eisenhower and other imperialists and internationalists to the contrary notwithstanding. All big wars must necessarily begin with a small incident. The way to keep out of war — OBVIOUSLY — is not to go to war.

The lunatic delusion of "collective security" and "massive retaliation" and other products of the diseased liberal mind are founded on fraud, dishonesty, hypocrisy, subversion and ignorance. They do not exist now and never have existed. They are suicidal hallucinations which are rapidly driving America toward a third World War — and a third World War, moreover — in which we would have scant chance of victory.

America's vital interests are not in the oil fields of Jordan. Neither are they with the Suez Canal or with the preservation of the bastard state of Israel or the British "Empire". America's vital interests are and always have been in the Western Hemisphere. *The Lie that America*

must forever involve herself in all of the troubles of the world is itself the cause of 95% of these troubles. It is the biggest Lie in all history. It is paranoia.

As an excuse for their indecent eagerness to try and salvage their huge investments by slaughtering more American boys, our "world-improvers" stridently cry that we must "save the oil from the Russians." Yet the merest thought makes it crystal clear that the Arab nationalists have even less use for Russian-style imperialism ('a la Hungary') than Western-style imperialism. OBVIOUSLY, the only reason that Russia has been able to involve herself as deeply as she has in Arabland are because of Western oil imperialism and because of the existence of the hated Israeli state — which the Arabs view as being created, financed and militarily backed by the governments of the West. Were it not for these two subversive factors, the Arabs would lose no time in shoring up their defenses against their natural enemy — Russia.

Only the blind and the corrupt cannot see the OBVIOUS; namely, that greedy and vicious money-grubbers and Zionists have implicated us deep within the coils of a terrible world situation, the only solution of which appears to some to be war.

The United States of America has no right or valid reason to interfere in the affairs of the Middle East, just as it had no right or valid reason to interfere in the European wars of 1914 and 1939 and just as no other nation has a right or valid reason to interfere in our affairs. This is the principle of nationalism.

If we are to stay out of war there is but one way to do it and that is not to go to war. It is that simple. It is not complex at all. Rather the seeming complexity has been invented by the tribe of anti-American forces which habitually and profitably confuse and misrepresent every political and social issue.

A nation cannot — and will not — stay out of war by going to war.

Those Fighting Men of God

One of the happiest developments of recent months in fundamentalist Christianity is the consolidation of the two powerful messages of Dr. Willard H. Pope and Dr. Billy James Hargis. From now on, Pope's *Prophetic Reporter* and Hargis' *Christian Crusade* have been merged into one new magazine, beautifully printed in two colors and carrying on each of its 12 pages many fine articles not only on spiritual matters but also on world and national politics. The new magazine sells for \$1 per year from P.O. Box 977, Tulsa, Okla.

Two months ago, "Parson Jack" Johnston, editor of the *Georgia Tribune*, repudiated Billy

Graham and this has caused other true fundamentalists to take a second look at the popular evangelist. Now, Dr. Noel Smith, Editor of the *Baptist Bible Tribune* (Box 106, Springfield, Mo.) recently published an article by himself entitled, "I Cannot Remain Silent on the Compromises of Billy Graham." He accuses Billy of taking advantage of situations to advance his personal ambitions.

Dr. E. F. Webber's magazine, *Truth*, always has many good articles and reprints. In the October number, Frank Kirkpatrick writes, "Those in our federal government who made possible the Communist advance at U.S. expense are still there." Dr. Webber, whose radio messages are heard by millions, will send a copy of his radio

schedule on request. Box 1144, Oklahoma City, Okla.

BELIN MEMORIAL UNIVERSITY, Chillicothe, Mo., is a "lusty growing, crowing infant" which is making great strides ahead in its development plans. Writes Dr. Don Hare, "We believe that we are establishing a pattern and setting the pace for a brand-new Christian economy in America . . ."

Also growing rapidly is the FREEDOM SCHOOL, Bob LeFevre's brainchild, which is taking shape on the colorful landscape of Colorado, thanks to the hard-working sinews of volunteers. For a free brochure on this promising development, write Box 165, Colorado Springs.

Among the happy celebrants at the November 7 gala Communist blowout at the Red Embassy in Washington, which was thrown in honor of the 39th Anniversary of the Bolshevik Revolution, was the prominent trotskyite, William O. Douglas, who befouls the Bench of the American Supreme Court. The picture above, taken at the party, shows him shaking the bloody hand of Ambassador Georgi N. Zarubin, who is considered by Washington experts to be a "moderate" like his colleague, Marshall Georgi Zhukov, who at present is in charge of butchering tens of thousands of Hungarian patriot nationalists, or shipping them off to Siberia in cattle cars. Incidentally, reports persist that "moderate" Zhukov has been forced to forego his personal correspondence with "middle-roader" Ike Eisenhower because of the heavy work schedule he has in Hungary.

Rightist Intellectuals Take Offensive

Liberals have a way of corrupting everything they touch, and this has been so true in the field of thought that many normal persons have formed the habit of simply discounting in advance anything which sounds at all "scholarly."

However, this is a bad error, for in this respect, the case for the Right is strongest of all. In no field is this better illustrated than in the touchy one of race.

Of late, scholars like Dr. W. C. George, a Biology professor at the University of North Carolina, and Dr. Henry E. Garrett, formerly of Columbia, have made it abundantly clear that reasonable thinkers have no use for liberal delusions of racial equality. Garrett, a renowned

authority who has written many textbooks, has a non-technical article in the last Citizens' Council newspaper, available from 605 Plaza Bldg., Jackson, Miss.

Garrett, by the way, was a member of the committee in charge of the Army testing program for draftees in World War II. Although he and other members of that committee have since requested the Army to release the statistical data to them which they themselves gathered about racial mental differences, the Army has adamantly refused this, knowing that the truth about this tender subject would offend the powerful ADL and the NAACP, both of which have a vested interest in upholding the racial equality lie so as to bring on eventual mongrelization and degeneration of the races.

In the November *Atlantic Monthly*, the editors graciously permit Herbert Ravenal Sass to write an article entitled, "Mixed Schools and Mixed Blood," which is a statement of the race issue as seen by a Southerner. It is followed immediately by one Oscar Handlin, a Harvard prof who attempts to confuse and misrepresent the issue with the usual liberal gabble. Propounds Handlin, from the village fastness of Cambridge, Mass., "The haunting specter of racial amalgamation corresponds to nothing in the world of actuality."

In a syndicated article, conservative columnist Holmes Alexander has some wise comments on one of the favorite liberal catchwords, "prejudice." Says Alexander, "Nor is it wise to speak disparagingly of Southern 'prejudice' as if it were some bestial indulgence. A good many famous political thinkers, including Edmund Burke and Irving Babbitt, have rated prejudice as the highest form of wisdom. It is, of course, the accumulated findings of the ages. It comes directly from experience, not from books. It represents folk knowledge and tribal instinct, these being a far higher form of wisdom than anything produced by an individual, no matter how gifted and learned." This same thought is one of many which is brought out by Byram Campbell's scholarly and controversial book, *World of Oneness* (\$3.50 from PACIFIC BOOK CO., 260 Kearny St., San Francisco 8).

Taking the "bull" (and it really is "bull"), by the horns, Dr. E. L. Anderson (Box 67, Sausalito, Calif.) wrote an open letter to a UCLA professor named Clement Meighan in which he brands Meighan a propagandist for his senseless stand on the race issue. Anderson calls upon the Trustees of UCLA to fire Meighan for incompetence. Anderson's letter is of value because of its detail in refuting Meighan's contentions regard-

4

ing race. Anderson is also the author of an article in October *Virginian* (310 53rd St., Newport News, Va.) in which he proves that the NAACP is viciously anti-Negro! (The same issue of this paper has a report on the shameful mess created in the schools of Washington, D.C. by the Administration's integration order. This stupid experiment has ruined the education of thousands of White children, besides creating crime, delinquency and sex problems galore. A free copy of this aggressive publication is available for the asking.)

The South African Observer, a magazine published at P.O. Box 3638, Cape Town, South Africa, each month carries an article by Anthony M. Ludovici, noted scholar and author. Other features of this 16-pager are reports on the racial front all over the world, done in a first-rate fashion. The favorable exchange rate must account for the low annual subscription price of \$1.50.

TRUTH ABOUT SUEZ NOT KNOWN

Although generally speaking it is unsafe to make flat statements or broad generalizations about the Middle East and Eastern European situations because so much is being concealed from the people about them, nevertheless many interesting facts have already emerged and doubtless more will come to the surface later.

For instance, Peter J. Huxley-Blythe (37, Wensley Ave., Fleetwood, Lancashire, England) who is the author of *Betrayal*, the hard-hitting expose of English and American pro-Communist perfidy at the end of World War II (50¢), reports from England in the monthly periodical *World Survey*, that "Sir Anthony Eden . . . was fully aware that nationalization of the Suez Canal would follow shortly after the withdrawal of British troops from the Canal Zone."

Inform, authoritative intelligence digest put out at 3 W. 23rd St., Baltimore 18, Md., reports that there is — or was — a "deal" on between the Kremlin and the West to the effect that Russia would not intervene in the Middle East if we would not stir up trouble in Eastern Europe. That this is — or at least was — probably true seems to be confirmed by a cryptic comment in the November 2 *U.S. News & World Report*, which says, "Before the uprisings in Poland and Hungary, rumors were going through the chancelleries of Western Europe that the U. S., after the November elections, would be ready to deal with the USSR on the basis of Soviet domination of Eastern Europe." All of this fits perfectly with the pro-Communist foreign policy which has been followed

by the "chancelleries of Western Europe" and the U.S.A. so it is probably true.

The explosions in Poland and Hungary and the resulting Russian brutality plus the Chinese offer to send "volunteers" to Suez have put the cork temporarily on the Administration's plan to scuttle Chiang and press for admission of Red China to the UN, RIGHT's Washington correspondent surmises. Public opposition to such an attempt would be too bitter at this time.

Persecution of the Right

Lucille Miller writes that her husband, Manuel, who is locked up because of his refusal to kowtow of official corruption and lawlessness, is being subjected to "corrective therapy" in Danbury Prison by Warden Harold Haegstrom. This "therapy" consists of, reports Lucille, "the use of drugs to alter or abolish the political outlook which led to the 'crime'." This "crime" consists of exercising freedom of speech, as Warden Haegstrom offered freedom to Manuel if he would "promise to quit the *Green Mountain Rifleman*, the anti-communist paper the Millers publish at Bethel, Vt.

Taylor Caldwell, world-renowned authoress, recently visited Europe and the Holy Land. While in France, she was feted by a great party given in her honor, which was attended by thousands. This was front-page news in all the French papers but nary a word came out in American papers. Nor did American papers bother to note that she was offered the Legion of Honor. As she says, "Had I been a Leftist writer this would have been front-page news in America." An understatement. She would have found her picture on *Time's* cover! And her life story would have been bought by *Life* for \$100,000!

FROM HERE, THERE AND EVERYWHERE:

The double standard, against which liberals and Zionists inveigh so mightily when it suits their purposes, is a matter of policy with the federal government when it comes to Israelite bonds. Points out *Closer Up* newsletter (P. O. Box 2223, Palm Beach, Fla.) "Every contributor to these bonds is guilty of violating Title 18, Criminal Code of the U.S., Section 13" which makes it a crime to "furnish money for a war against a Power with which the United States is at peace." . . . The CAMPAIGN FOR THE 48 STATES, headed up by dynamic, successful businessman Robert Snowden, is moving ahead with its large-scale plans to re-establish America on a Constitutional foundation. Planned to begin in January are television shows in 255 cities across the Nation. But there is more

5

to it than that! Send to Box 1112, Memphis 1, Tenn., for free literature . . . The dangerous fluoridation fraud has been defeated in some 200 towns and cities. For a list of these lucky spots, write Rollin Severence, Box 850 Saginaw, Mich. . . . *The Virginian*, up-coming States' Rights paper edited by young Bill Stephenson, is making a novel service available to readers. A classified section will be offered in which patriots can advertise books, pamphlets, meetings, etc. for only \$2 per column inch. Write 310 53rd St., Newport News, Va., for data . . . A free list of over 300 organizations which have been declared "subversive" by the Attorney General is available from Col. Sidney S. Rubenstein, Deputy Director, Office of Personnel Security Policy, Secretary of Defense, Washington 25, D.C. Oddly, about a dozen of these groups appear to be Rightist, pro-American groups! . . . What, anyway, is capitalism? In *Christian Economics*, renewed libertarian paper which goes to thousands of clergymen and is available for \$1 per year (26 W. 58th St., New York 19,) Percy Greaves defines it thusly, "Capitalism is that form of social cooperation wherein men save by voluntarily consuming less than they produce." In his provocative *Appeal to Reason*, (Becket, Mass.) Lawrence Dennis quote an English author as saying, "The definition of capitalism in terms of ownership has wholly lost its significance and interest." This conclusion — with which Dennis agrees — is brought on by the effect of high taxes . . . The *Augusta Courier* (Southern Finance Bldg., Augusta, Ga.) is already boosting Herman Talmadge for President in 1960. Talmadge alone "truly represents the heartbeats of the Southern people."

(The American Republic, as established by the Founding Fathers, was just such an oligarchy, though Ben Franklin and others warned that it would degenerate into a democracy.) This book, (\$3) as well as a list of other outstanding nationalist titles and some unusual combination offers, can be had from Planetarium Station, P.O. Box 24, New York 24, N. Y.
